San Francisco, CA 94105

Subject: City of Riverside Public Utilities Department (ID 139796) Title V Permit  
Revision

Dear Mr. Rios:

The City of Riverside Public Utilities Department has proposed to revise their Title V permit by lowering the PM10 mass emission rate, increasing monthly and annual start-ups and shutdowns, and increasing monthly operations for two of their gas turbines (D16 and D22) located at the Riverside Energy Resource Center. The facility is a municipal power plant located at 5901 Payton Avenue, Riverside, CA 92504. This proposed permit revision as requested under Application Number 544564 is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on May 31, 2013.

If you have any questions or need additional information regarding the proposed permit revision, please call Mr. Marcel Saulis at (909) 396-3093.

Very truly yours,

A handwritten signature in blue ink, appearing to read 'Andrew Lee', is written over the typed name.

Andrew Lee, P.E.  
Senior Air Quality Engineering Manager  
Energy/Public Services/Waste Mgmt/Terminals
