Mr. Michael McCann
Vice President, Pipeline & Terminals
Tesoro Refinery and Marketing Company
2101 E. Pacific Coast Hwy.
Wilmington, CA 90744

Dear Mr. McCann:

RE: Tesoro Refinery and Marketing Company
Facility ID # 151984

Enclosed are the revised Title Page, Table of Contents, Section A, and Section D of your Title V Facility Permit. The revised sections reflect the issuance of Permits to Operate as follows:

Section D – Permits to Operate Added

498753	G4637	STORAGE TANK FX RF W/INT FLT ETHANOL (2600001)	Increasing the ethanol throughput from 79,365 barrels per month to 130,000 barrels per month.
--------	-------	---	---

Section D – Permits to Operate Removed (superseded by new permits)

469133	G3762	STORAGE TANK FX RF W/INT FLT ETHANOL (2600001)	Superseded by A/N 498753:P/O G4637
--------	-------	---	------------------------------------

Section A was revised to reflect the current responsible official. This revision is covered under A/N 498754 and is a “de minimus permit revision” to the Title V permit previously issued July 21, 2009 under A/N 479443. The 45-day EPA comment period began about September 29, 2009 and the EPA has terminated their review early with no comments on October 13, 2009, therefore the permit is now eligible for issuance.

Please review the attached sections carefully. Insert the enclosed sections into your Title V Facility Permit and discard the earlier versions.

Mr. Michael McCann
Tesoro Refinery & Marketing Company
COID 151984

October 16, 2009

The operation of your facility is bound by the conditions and/or requirements stated in the facility Permit to Operate. If you determine that there are administrative errors, or if you have any questions concerning changes to your permit, please contact Mr. Sean Cullins, Air Quality Engineer, at (909) 396-2655 within 30 days of the receipt of your permit.

Please note that although the EPA has terminated their review early, the 60 day period for the public to petition the Administrator to object to the permit begins on November 17, 2009, the next business day after EPA's 45 day review period would otherwise have ended.

Sincerely,

Jay Chen, P.E.
