Subject: Expedited Review of Proposed Title V Facility Permit Revision

Dear Mr. Rios:

The University of Southern California (ID #800265) has proposed to revise their Title V facility permit by modifying existing gasoline storage and dispensing equipment under Permit to Operate N18978. This proposed revision is considered a “de minimis significant permit revision” to their Title V Facility Permit. The draft Title V permit for the proposed revision is being sent electronically for your review. We are also requesting expedited review of the draft permit.

If you have any questions or wish to provide comments regarding these changes, please call the processing engineer, Ms. Maria Vibal at (909) 396-2422.

Sincerely,

Michael D. Mills, P.E.
