**Re: Notice of Final Action - Minor Title V Permit Modification
District Facility # N-238
Project # N-1103560**

Dear Mr. Hoffdahl:

The Air Pollution Control Officer has modified the Title V permit for Corn Products International, Inc by incorporating Authority to Construct N-238-19-5. This project was to replace the existing 12,000 gallon above ground salt slurry storage tank with same capacity new tank. The existing tank was aged to a point where it needs replacement.

Enclosed is the modified Title V permit. The application and proposal were sent to US EPA Region IX on November 24, 2010. No comments were received following the District's preliminary decision on this project.

Thank you for your cooperation in this matter. If you have any questions, please contact Mr. Rupi Gill, Permit Services Manager, at (209) 557-6400.

Sincerely,

David Warner
Director of Permit Services
