P.O. Box 8300
Perris, CA 92572

Equipment Location 1301 Case Road
Perris, CA 92570

FACILITY ID 007417
APPLICATION 503373- Title V Minor Permit Revision

Background

Eastern Municipal Water District (EMWD) Perris Valley Regional Water Reclamation Facility (PVRWRF) filed A/N 503373 for Title V permit revision No. 04 on November 4, 2009. The Title V permit revision includes permit applications 510552, 510553, and 510554. A/Ns 510552 through 510554 were filed for three identical IC engines to replace the catalytic converters to meet future emission standards pursuant to Rule 1110.2 and update the equipment descriptions.

Title V revision No. 04 is considered a minor permit revision, because there is no emission increase and the modification of the equipment does not result in new or additional NSPS or NESHAP requirements and will be subject to an EPA review (Rule 3003 (j)).

Public notice is not required. For additional information and permit evaluation please refer to the attached evaluation prepared for the EPA review.

Note: Initial Title V (A/N 412175) was issued October 31, 2008. Title V Revision No. 01 (A/N 493910) was issued July 31, 2009. Title V Revision No. 02 (A/N 496806) was issued January 1, 2010. Title V Revision No. 3 (A/N 499898) was issued September 9, 2010.

Rules Evaluation

Compliance with applicable rules and regulations is expected.

Conclusions and Recommendations

A Permit to Operate is recommended for A/Ns 510552, 510553, and 510554. A revised Title V permit is recommended after EPA review.
