I certify under penalty of perjury that the foregoing is true and correct,
at Redding, California on the above date.

RECORD SEARCHLIGHT
1101 Twin View Blvd, Redding, CA 96003

PUBLIC NOTICE
PROPOSED ISSUANCE OF TITLE V PERMIT

Pursuant to Rule 5 of the Shasta County Air Quality Management District Rules and Regulations, the Air Pollution Control Officer (APCO) has made a preliminary decision to issue an Operating Permit under Title V of the Federal Clean Air Act Amendments of 1990 to Knauf Insulation, GmbH, which is located south of Shasta Lake City, CA, at 3100 Ashby Road. This permitting action is the renewal of Title V Operating Permit 03-VP-01 for the facility and does not involve equipment and emission changes.

Written comments regarding the proposed decision may be submitted to the Shasta County Air Quality Management District within a period of thirty (30) days of the date of this notice. Any comments received will be considered prior to the final determination by the APCO to issue the permit.

A public hearing to receive comment on this proposed decision has not been scheduled, but one may be requested by submitting a written request to the District within thirty (30) days of the date of this notice. Written request for a public hearing must include the requester's name, mailing address, and a statement for the reasons for requesting a public hearing. Grounds for requesting a public hearing should be limited to issues relevant to District Rule 5, 'Additional Procedures For Issuing Permits To Operate For Sources Subject To Title V Of The Clean Air Act Amendments Of 1990.' If a public hearing is to be held, the District will provide thirty (30) days notification prior to holding the requested public hearing.

The application, proposed permit, and the District's Evaluation Report are available for inspection at the Shasta County Air Quality Management District, 1855 Placer Street, Suite 101, Redding, CA 96001. The proposed permit and evaluation report sets forth the legal and factual basis of the permit conditions contained in the proposed permit. Written comments on the proposed decision or a request may be mailed or hand carried to the District at the above location. Additional information may be obtained from the District by phone at (530) 225-5874.

After the closure of this comment period, the District will provide the U.S. Environmental Protection Agency (EPA) with a 45-day review and objection period for this proposed decision. If the EPA Administrator does not object in writing, any person may petition the EPA Administrator to make such objection within 60 days after the expiration of the EPA review period. Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period for this proposed decision, unless the petitioner demonstrates that it was impracticable to raise such objections within such period or that the grounds for such objection arose after such period. The APCO shall not issue the permit until the EPA's objection, if any, has been resolved.

Date: October 25, 2013
