### TITLE V PERMIT (REV 06) EVALUATION

**Applicant's Name** Eastern Municipal Water District  
Moreno Valley Regional Water Reclamation Facility

**Mailing Address** 2270 Trumble Road  
Perris, CA 92572-8300

**Equipment Location** 17140 Kitching Street  
Moreno Valley, CA 92582

**FACILITY ID 013088**  
**APPLICATION 485922- Title V Minor Permit Revision**

#### **Background**

Eastern Municipal Water District (EMWD) Moreno Valley Regional Water Reclamation Facility (MVRWRF) A/N 482922 was submitted for Title V permit revision (06) on July 31, 2008. The Title V permit revision includes a permit applications: A/N 466446 for permitting a LPG tank that was operating without a permit, A/N 479451 for an administrative change to a sewage treatment plant to remove a Rule 219 exempt boiler in the equipment description, A/N 485926 for the conversion of a stationary IC engine from non-emergency use to emergency use, and A/N 510438 for the modification of a digester gas flare.

Title V revision 06 to include the above modifications is considered a minor permit revision, as it does not require or change a case-by-case evaluation of: RACT or MACT, does not violate a regulatory requirement, does not require any significant change in monitoring terms or conditions in the permit, does not require relaxation of any recordkeeping, or reporting requirement, or term, or condition in the permit, does not result in an emission increase, does not establish or change a permit condition that the facility has assumed to avoid an applicable requirement, is not subject to new NSPS or NESHAP.

Public notice is not required. For additional information and permit evaluation please refer to the attached evaluations prepared for EPA review.

Note: Title V Revision 05 (A/N 500149) was issued August 20, 2010.

#### **Rules Evaluation**

Compliance with applicable rules and regulations is expected.

#### **Conclusions and Recommendations**

A Permit to Construct is recommended for applications 479451 (sewage treatment plant) and 510438 (digester gas flare) and a Permit to Operate is recommended for applications 466446 and 485926. A revised Title V permit is recommended after EPA review.
