

**Santa Barbara County
Air Pollution Control District**
October 6, 2008

Mr. Gerardo Rios
Acting Director, Air Management Division, A-1
United States Environmental Protection Agency, Region 9
75 Hawthorne Street
San Francisco, CA 94105

Subject: Proposed Part 70 Permits to Operate for Outer Continental Shelf (OCS) Platforms A, B, C, Henry and Hillhouse ; Permits to Operate (PTOs) 9110-R3, 9111-R3, 9112-R3, 9113-R3 and 9114-R3.

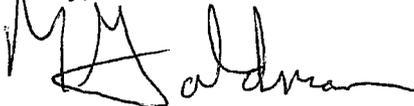

Dear Mr. Rios:

This letter transmits a copy of the proposed Part 70 renewal permits for OCS Platforms A, B, C, Henry, and Hillhouse, operated by Dos Cuadras Offshore Resources. This is the third Part 70 permit renewal for this stationary source. The source remains a major source of volatile organic compounds, nitrogen oxides and carbon monoxide emissions.

We believe that receipt of the proposed permits starts the USEPA's 45-day permit approval clock; thus, if we do not receive any response from you by December 1, 2008, we shall assume the proposed permits are approved by the USEPA. Please note that the draft permits will be open to public review and comment from October 6, 2008 until November 5, 2008

If you have any questions regarding these permit renewals, please call Kaitlin Ergun of our staff at (805) 961-8855.

Sincerely,

Michael Goldman, Manager
Engineering & Compliance Division

- Attachments:
1. 'Proposed' Part 70 permit renewals (5 parts) for the Dos Cuadras - South County stationary source, prepared by the APCD, consisting of: PTO's 9110 through 9114 for Platforms A, B, C, Henry and Hillhouse.
 2. A copy of the Part 70 permit application for the stationary source.
