**ORDER EXTENDING TIME TO FILE REPLY TO
REGION 10's RESPONSE BRIEF**

On September 30, the Idaho Conservation League (“ICL”) filed a petition for review of NPDES Permit ID-002042-7 that the United States Environmental Protection Agency (“EPA”), Region 10 (“Region”) issued to the City of Homedale Wastewater Treatment Plant. Pursuant to 40 C.F.R. § 124.19(b)(2), the Region must file its “response to the petition for review, a certified index of the administrative record, and the relevant portions of the administrative record within 30 days after” the petition is filed. By order dated October 30, 2013, the Board granted the Region’s motion to extend the time for the Region to file its response until December 6, 2013. *See Order Granting Region 10’s Motion for Extension of Time.* On December 6, 2013, the Region filed its response along with a certified index to the administrative record and relevant portions of the record. *See EPA Region 10’s Response Brief.* Pursuant to 40 C.F.R. § 124.19(c)(2), ICL may file a reply “within 15 days after service of the response.”

ICL seeks addition time, until January 24, 2014, to file its reply because the existing deadline falls on December 23, 2013, “in the middle of the Christmas Holiday period and key ICL staff needed to prepare and review the reply brief will be out of town for the Holidays.” Idaho Conservation League’s Motion for Extension of Time to File Reply to EPA’s Response Brief (“Motion”) at 2. ICL states that the Region does not oppose the Motion.

For good cause shown, the Motion is hereby **GRANTED**. ICL must file its reply to the Region’s response brief on or before **January 24, 2014**.¹

So ordered.
