Permit No. LA0068420)	
)	

ORDER DISMISSING APPEAL

In an Agreed Motion for Remand dated December 1, 1998, U.S. EPA Region VI (with the concurrence of petitioner U.S. Liquids of Louisiana, Ltd.) requests that the permit decision at issue in the above-entitled appeal be remanded and the appeal dismissed. The Region states that the parties have reached agreement concerning the issuance of a revised permit decision that, if it becomes effective, will resolve all issues raised in the petition for review and thereby moot the appeal. The Region requests that this matter be remanded for issuance of the revised permit decision to which the parties have agreed.

The Agreed Motion for Remand is hereby granted, and NPDES Appeal No. 98-1 is, accordingly, dismissed. As requested by the parties, dismissal of the appeal is without prejudice to its

reinstatement in the event that the revised permit decision to which the parties have agreed does not become effective.

So ordered.
