Yes, the 27th still works for now; however it is under discussion internally at the moment.

Cory - I can rearrange some meetings to make the afternoon on Thursday, 2/21 work. I understand about the clearance areas and we will "cross that bridge" if its needed that I need to look into any of those areas.

Do you think we can still have our second meeting on the 27th?

Thanks.

Amy,
I've been working to get an email off to you about
this along with several
reference documents for the past few days, but you
beat me.
We have talked about the site visit and unfortunately
our target dates don't
match yours. We are looking at:
-- Thursday, 21 Feb, or
-- Friday, 22 Feb.
Agree with targeting the afternoon, although the
weather (and wind) is so
variable, and 2-3 hours will suffice. We can 'look'
at all areas, tenants,
airfield etc; but there are a few fences that
restrict access. I think for
this visit, we should do the looking and if you feel
the need for a closer
look at any area inside a restricted area fence,
we'll get you security
clearance and do a follow-up focused site visit. We
can get to all outfalls
without restriction.

Just got your 2nd email about Laurie's email; she is
out sick today and her
inbox is full; we might be able to accommodate either
the 19 or 20 Feb
dates, but will need to check with Laurie upon her
return, if needed.
Please let me know about either the 21 or 22 Feb.
Thanks, Cory

Subject: Site Visit

Hi Cory and Laurie - Some dates that work for me to do a site visit of Buckley are:

Thurs, 2/14
Tues, 2/19
Weds, 2/20

I would prefer the afternoon (warmer temperatures for being outside) and will plan on several hours (after lunch through the end of the day) although I do not know if it will take that long. However, I will want to look at the areas under control of the tenants, any air strips, Toll Gate Creek as it enters and exits the base, any new/re development projects, all your known outfalls (conveyances to Toll Gate Creek) and well as possibly some additional areas.

Please let me know if any of these dates work for you or if we need to look at additional dates. By the way, it will just be myself going to the base.
Thanks!
