RE: Public Notice and Public Comment Period for FutureGen Industrial Alliance, Inc. Class VI Underground Injection Control Draft Permits in Morgan County, Illinois

Dear Mr. Mangan:

The U. S. Environmental Protection Agency plans to allow FutureGen Industrial Alliance, Inc. to inject carbon dioxide underground by approving the company's application for what EPA calls a Class VI injection well permit. EPA is accepting comments from the public on this proposed permit approval. The public comment period ends Thursday, May 15, 2014.

Per our program regulations, 40 C.F.R. 124.10(e), all permit application and draft permit materials are available to your office. Enclosed is the Fact Sheet/Public Notice for these permits. The draft permit and permit application are available online at: www.epa.gov/region5/water/uic/futuregen/. As these documents are lengthy, please let us know if you would like electronic or hard copies by contacting Lilly Simmons of my staff at simmons.lilly@epa.gov or (312) 886-5740.

Sincerely yours,

Lisa Perenchio, Chief
