**Subject:** Notice of Issuance of Minor New Source Review Permits on the Uintah and Ouray Indian Reservation

This is to notify you that the EPA has issued final Clean Air Act (CAA) minor new source review permits for six (6) facilities pursuant to the Tribal Minor New Source Review (MNSR) Permit Program at 40 CFR Part 49. The final MNSR permits, response to comments and administrative permit records will be available in PDF format on our website at: <http://www.epa.gov/caa-permitting/caa-permits-issued-epa-region-8>. The six (6) facilities are listed below.

- East Bench Compressor Station - Permit # SMNSR-UO-000824-2016.001;
- Sage Grouse Compressor Station - Permit # SMNSR-UO-001875-2016.001;
- North East Compressor Station - Permit # SMNSR-UO-001874-2016.001;
- North Compressor Station - Permit # SMNSR-UO-000071-2016.001;
- Archie Bench Compressor Station - Permit # SMNSR-UO-000817-2016.001; and
- Bitter Creek Compressor Station - Permit # SMNSR-UO-000818-2016.001.

In accordance with the regulations at §49.159(a), the permits will be effective 30 days after the date of this notice, on July 7, 2018. Within 30 days after a final permit decision has been issued, any person who filed comments on the proposed permits or participated in the public hearing may petition the Environmental Appeals Board (EAB) to review any condition of the permit decision. The 30-day period within which a person may request review under this section begins when we have fulfilled the notice requirements for the final permit decisions. Motions to reconsider a final order by the EAB must be filed within 10 days after service of the final order. A petition to the EAB is under Section 307(b) of the CAA, a prerequisite to seeking judicial review of the final agency action. For purposes of judicial review, final agency action occurs when we issue or deny a final permit and agency review procedures are exhausted.

Thank you,

Eric
