Hi Corwin - Tuesday, 4/19 works for me. I'm fine with you coming here although I'm downtown and parking is always a headache. I'm fine coming out there if you don't want to deal with finding and paying for parking. Just let me know.

Regarding the topics of discussion, I would like to focus the discussion on what language would be agreeable to both EPA and Buckley AFB regarding post-construction controls. I have read all the comments and we can briefly talk about them, but I would like to focus more on what (if any) language we can agree upon for the permit. I would also briefly like to talk about how other bases and federal facilities are handling the new permit language and the benefits/challenges they are encountering.

Thanks.

Hi Amy,
I am out of the office pretty much till 6 or 7 April, so would like to look at the week of 11 April. If you don't mind, I'll have Cory Oldweiler try to set something up for us. I would like Ed Carver to join us, if you don't mind -- he's been in the middle of all the comments.

Thanks,
Laurie

Laurie - I apologize for not getting back sooner on the draft MS4 permit. I would like to set up a meeting to talk about the Air Force and DOD comments on the draft permit. At this time, I would like to not involve legal council but if you feel differently, please let me know.
