Ken - I finally got an answer from our attorney regarding your question, and yes, the SOB does serve as the legal interpretation of the permit. If you have any additional questions, please let me know. Thanks and have a great holiday.

Subject: Buckley AFB MS4 permit

Amy, I've finished reviewing the proposed MS4 permit and statement of basis for Buckley. After the permit is issued, does the statement of basis serve as a legal interpretation of the permit language when there is a compliance question or dispute?

If so, I don't have any comments to offer. If not I will want to offer comments regarding the permit requirement to "mimic pre-development hydrology". If I were the permittee I would want that requirement defined very clearly, which I believe you did nicely in the statement of basis.

Also, when you call tomorrow at 3 p.m. I may still be in a meeting but Holly Piza will be available at 303.455.6277 – just ask for her.

Thanks Amy,

Ken MacKenzie, PE, CFM
