NPDES Appeal No. 09-05

ORDER GRANTING FOURTH EXTENSION OF RESPONSE TIME

On March 13, 2009, the Environmental Appeals Board received a petition for review of the National Pollution Discharge Elimination System permit referenced above (the "Permit") that U.S. Environmental Protection Agency Region 6 (the "Region") issued on February 13, 2009. The petition was filed by the Western Environmental Law Center on behalf of Amigos Bravos, Concerned Citizens for Nuclear Safety, Embudo Valley Environmental Monitoring Group, Honor Our Pueblo Existence, New Mexico Acequia Association, Partnership for Earth Spirituality, J. Gilbert Sanchez, Kathy Sanchez, and Tewa Women United (collectively "Petitioners").

The permit would authorize, subject to conditions, storm water discharges from point sources at the Los Alamos National Laboratory ("LANL") located in Los Alamos County northwest of Santa Fe, New Mexico. By letter dated March 17, 2009, the Clerk of the Board requested that the Region file, no later than April 30, 2009, a response to the petition for review and copies of relevant portions of the administrative record, together with a certified index of the administrative record. By Order dated April 21, 2009, the Board granted the Region's motion for an extension of time to file its response to the petition and the Board granted the request of the United States Department of Energy ("DOE") and Los Alamos National Security, LLC

("LANS"), as LANL's owner and co-operators, to be allowed to file a response to the petition. That Order set June 11, 2009 as the deadline for both the Region's and DOE/LAN's responses. By subsequent Orders, dated June 9, 2009, and September 4, 2009, the Board extended the Region's and DOE/LANS's response deadline first to September 11, 2009, and then to October 23, 2009.

Currently before the Board is a joint motion by the Region, LANS, DOE, and the Petitioners requesting that the October 23, 2009 deadline for the Region and DOE/LANS to file their responses to the petition be extended to December 4, 2009, in order to accommodate on-going settlement discussions.

Upon consideration, the joint motion is granted. DOE and LANS shall file their joint response, and the Region shall file its response and other information identified in the Clerk's March 17 letter, on or before Friday, December 4, 2009.

So ordered.

Dated: DEC - 3 2009

ENVIRONMENTAL APPEALS BOARD
