RE: Request for two-week extension for NPDES permit NN0028193 Appeal period

To the EAB:

I am writing you to request a two-week extension on issuance of the BHP Navajo Mine NPDES permit NN0028193 appeal period. The principal author of the comments submitted by Clean Air Task Force, San Juan Citizens Alliance and Dine CARE was Jeff Stant. Mr. Stant has never formally received the NPDES permit NN0028193 documents in Indianapolis, Indiana. Instead the documents were apparently sent to him in Cortez, Colorado. Mr. Stant spoke with John Tinger of Region 9 EPA last week about this situation. We would certainly appreciate the opportunity to comprehensively review and evaluate the terms of the NPDES permit NN0028193 issuance. Thank you for your consideration of this request.

Sincerely,

*s/ Mike Eisenfeld*
