RE: Unilateral Administrative Order Docket No. V-W-10-C-950
Cleveland Trencher Site, Euclid, Ohio
Replying to the Attention of S-6J

SECOND SUPPLEMENTAL INFORMATION AND REQUEST FOR IMMEDIATE REVIEW

Dear Mr. Karl:

Safe Environmental Corporation of Indiana submitted to the Agency its Contest of Responsibility and Request for Release as a Liable Party on October 20, 2010. It submitted a letter of Supplemental Information on November 11, 2010.

As a result of cell phone records of Tomas Amaya provided to the agency in our November 11, 2010 letter, the EPA contacted Mr. Amaya. Regional Counsel Mr. Kevin Chow spoke with Mr. Amaya and provided Safe Environmental the following information.

When confronted with the phone records, Mr. Amaya now claims that when he went to obtain the License at the Safe Environmental Office specifically on August 31, 2007, that Anthony Paganelli was present in the office and was aware that the License was being given to Tomas Amaya. This new factual description wholly contradicts Mr. Amaya's testimony in his deposition where twice he testified that Mr. Paganelli was not in the office when he obtained the License.

First, he testified that he is confident that Mr. Paganelli was not in the office because he called him in the office "for something else," but Mr. Paganelli did not answer:

Q. What did you do?

A. I went to the office and I asked the -- I told the secretary Tony let me use his Ohio contractor license. Can I have a copy, please, and he gave it to me.

Q. What's his name?

A. I don't know what his name. Some people call him Matt and some people call him Chris.

Q. Did you tell Matt or Chris -- we'll call him Matt, Okay? Did you tell Matt about your conversation with Tony?

A. Yes.

Q. And what did you tell him?

A. I just talked to Tony, I asked him to use -- if he can let me use his Ohio license. He told me yes. And can I have a copy, please, and he gave it to me.

Q. Okay. Did you tell Tony about any details about the Cleveland Trencher job?

A. No.

Q. Why not?

A. Because I was secure, I was 100 percent sure the job going to be done with no problems.

Q. You're saying that you were sure there would be no problems?

A. Yes.

Q. And so that was sufficient for you not to tell him anything about the job?

A. He don't ask me.

Q. So you went to the office and you spoke with Matt and you said Tony said I can have the license for Ohio, please give it to me. What did he do?

A. Who?

Q. Matt.

A. He make a copy and gave it to me.

Q. And how did that happen? What did he do? Did he go to a filing cabinet? Did he go and talk to Tony? How did that happen?

A. Well, he -- I don't know -- I don't know where the license was. He make a copy and gave it to me.

Q. Did he do that in front of you or did he do it in a back room, what?

A. I remember he was making copy but I don't know -- he gave it to me but I don't know.

Q. Do you know where he got the license from?

A. No.

Q. Had you ever been in the office before?

A. So many times.

Q. You know that there's a board in there with the licenses all over the board, right?

A. Yes.

Q. Okay. Is that where Chris went to get the license?

A. I don't know.

Q. You didn't watch?

A. No. I didn't see it.

Q. What were you doing that you couldn't see that?

A. Maybe I was talking with the other secretary or I don't know.

Q. So you didn't even -- you didn't -- when you went to the office, you could have asked for Tony who would have been there?

A. No, he wasn't there.

Q. How do you know that?

A. Because I call him -- I call -- I was calling him for something else right at that moment. Oh, I think it was for -- calling him to tell him Chris, something like that but I was calling him and his call was for voicemail or something (A. Dep. 159:22 -- 167:14).

He then testified a second time that Mr. Paganelli was not in the office because he would have been able to see Mr. Paganelli if he were there.

Q. Okay. So when you went in to talk to Chris about getting the Ohio contractor's license from Tony, you also talked to him about getting Tony -- Carlos Bonilla's documents?

A. Yes.

Q. And Chris gave you all that stuff?

A. Yes.

Q. No questions asked?

A. Nope.

Q. Did he go back and talk to Tony and say that --

A. I don't know.

Q. -- Tomas Amaya is out front?

A. I don't know.

Q. Well, did he go in the back room?

A. Well, Tony wasn't there.

Q. And you know that because you tried to call him on his cell phone and he didn't answer?

A. No, he wasn't there. The office is small. You can see it (A. Dep 259:14 -- 260:10).

Safe Environmental submits that in conjunction with all evidence previously submitted, that Mr. Amaya is incredible and unreliable. It is believed that the Agency's determination of Safe Environmental's liability results solely upon Mr. Amaya's claims. Because Mr. Amaya has either lied under oath or lied to the Agency, that absent any independent evidence of Safe Environmental's liability, which there is none, that Safe Environmental should be released as a liable party.

Safe Environmental respectfully requests that this documentation in conjunction with all other evidence provided is taken into serious consideration by the Agency.

Very Truly Yours,

Patrick J. Thomas

RE: Unilateral Administrative Order Docket No. V-W-10-C-950
Cleveland Trencher Site, Euclid, Ohio
Replying to the Attention of S-6J

SETTLEMENT OFFER

Dear Mr. Karl:

On July 27, 2010, the Agency issued the first amendment of the above-identified Unilateral Administrative Order (“UAO”) naming, *inter alia*, Safe Environmental Corporation of Indiana (“Safe Environmental”) as a respondent and liable party but made no specific findings of fact with respect to Safe Environmental. As you are aware, Asbestek owner Tomas Amaya improperly abated the Cleveland Trencher Site (“Site”) in September 2007 under the tenuous claim that he had “permission” from former Safe Environmental President Anthony Paganelli to “use” Safe Environmental’s Ohio abatement contractor License. As you are further aware, the Agency’s entire basis for holding Safe Environmental liable results solely from this claim and that no independent evidence supports it.

Safe Environmental submitted to the Agency its Contest of Responsibility and Request for Release as a Liable Party on October 20, 2010, identifying substantial evidentiary support that it was not even remotely liable as a de micromis party. In the alternative to straight release, Safe Environmental proposed to settle the matter with the Agency.

On October 21, 2010, Safe Environmental submitted (1) its Notice of Intent to Comply to the extent that it was liable and (2) its Work Plan and Health and Safety Plans.

On November 8, 2010, the Agency notified Safe Environmental that Safe Environmental’s Intent to Comply lacked clarity and the Work Plan and Health and Safety Plans were deficient. The Agency issued a seven-day deadline for Safe Environmental to provide clarity and modify deficiencies. The Agency rejected settlement. The Agency failed to address

the factual content of Safe Environmental's October 20, 2010 Letter and failed to provide its basis for continuing to hold Safe Environmental liable. The Agency reminded Safe Environmental about the potential for penalties, fines and costs.

On November 10, 2010, the Agency extended the deadline for Safe Environmental to provide clarity and modify deficiencies to November 23, 2010.

On November 11, 2010, Safe Environmental submitted to the Agency supplemental information regarding cell phone records for Mr. Amaya that defeated his sworn testimony and provided factual support that Asbestek operated entirely without communication to or authorization from Safe Environmental.

On November 16, 2010, Regional Counsel Mr. Kevin Chow met in person with Mr. Amaya and showed him the cell phone records. Mr. Amaya provided a statement to Mr. Chow that when he obtained the License at the Safe Environmental office in 2007 that Mr. Paganelli was present and authorized it.

On November 18, 2010, Safe Environmental submitted to the Agency a letter directing the Agency's attention to two occasions in Mr. Amaya's deposition where he adamantly insisted that Mr. Paganelli was not present when he obtained the License.

On November 18, 2010, at Safe Environmental's request, Safe Environmental's counsel and Mr. Lovelace travelled to Chicago to meet with Mr. Chow to discuss (1) Mr. Amaya's contradiction; (2) Safe Environmental's lack of liability; (3) potential remediation and removal cost estimates for the Site; and (4) settlement options. At that time, the Agency indicated that it would continue to hold Safe Environmental as a liable party based on Mr. Amaya's statement. The Agency indicated it would not make a settlement offer but that it would respond to any settlement offers from Safe Environmental.

Safe Environmental submits that it does not have even de micromis liability with respect to the UAO and it has taken every effort to communicate facts in support of this position to the Agency. Further, Safe Environmental has communicated thoroughly and often with the Agency through dozens of teleconferences, e-mails, letters and a personal meeting. Safe Environmental invited the Agency to attend the depositions of Mr. Amaya and his partner John Vadas during which the Agency heard Mr. Amaya testify that he may not have been given the permission that the Agency relies on. In its written communications with the Agency, Safe Environmental has waived its rights under the Freedom of Information Act so that the Agency would have the convenience of communicating with other parties in order to conduct its own investigation. Despite this, the Agency continues to maintain that Safe Environmental is a liable party.

Notwithstanding Safe Environmental's position that it is not a liable party, Safe Environmental recognizes the costs that may be associated with litigation and makes the following settlement proposal as a resolution to this matter. In order to expedite effective remedial actions and minimize litigation pursuant to 42 U.S.C. § 9622(a) and (g), Safe Environmental offers the following settlement:

1. Safe Environmental will pay the Agency the sum of fifty thousand dollars (\$50,000.00);
2. In a form satisfactory to Safe Environmental and to the sole, exclusive discretion and satisfaction of Safe Environmental, the Agency will release Safe Environmental as a liable party and will not initiate future or further proceedings against Safe Environmental, as a liable and/or responsible party from any action initiated by the Agency under CERCLA, including but not limited to CERCLA § 107(a); 42 U.S.C. § 9601 *et seq.*, or 42 U.S.C. § 9607(a) associated with the Cleveland Trencher Site and identified in the UAO;
3. In a form satisfactory to Safe Environmental and to the sole, exclusive discretion and satisfaction of Safe Environmental, pursuant to 42 U.S.C. 9622(f) and (g)(2), the Agency will execute a covenant not to sue Safe Environmental;
4. In a form satisfactory to Safe Environmental and to the sole, exclusive discretion and satisfaction of Safe Environmental, pursuant to 42 U.S.C. 9622(g)(5), the Agency will execute a resolution of liability with Safe Environmental to prevent claims for contribution against Safe Environmental by other responsible parties or parties who have subrogation, indemnification or contribution rights;
5. In a form satisfactory to Safe Environmental and to the sole, exclusive discretion and satisfaction of Safe Environmental, the Agency will agree that Safe Environmental will not be required to waive (1) any claim it has or (2) any action on judgments it obtains against any party in related actions, including but not limited to those claims it has in Richland County, Ohio Common Pleas Court consolidated Case No. 2008-CV-2002; and
6. In a form satisfactory to Safe Environmental and to the sole, exclusive discretion and satisfaction of Safe Environmental, the Agency will acknowledge that Safe Environmental denies entirely having any responsibility or liability at the Site.

Should this settlement proposal be rejected by the Agency, Safe Environmental demands that the reasons for determination be placed in writing and submitted to Safe Environmental pursuant to 42 U.S.C. 9622 (g)(9) as soon as possible.

We look forward to your response.

Very Truly Yours,

A handwritten signature in black ink, appearing to read "Patrick J. Thomas", written over a horizontal line.

Re: Cleveland Trencher Superfund Site, Euclid, OH
Unilateral Administrative Order
Docket No. V-W-10-C-950

Dear Mr. Thomas:

This is in response to your letter of November 22, 2010, which I have received by e-mail. On behalf of your client, Safe Environmental Corporation of Indiana ("Safe"), you are offering to settle Safe's involvement in this matter for \$50,000 in payment to the U.S. Environmental Protection Agency, in lieu of performing work at the Cleveland Trencher Superfund Site ("Site"), 20100 St. Clair Ave., Euclid, Ohio, under the above-referenced Unilateral Administrative Order and its amendments.

At this time, EPA cannot accept such offer. Tomas Amaya and John Vadas of Asbestek, Inc. (collectively, "Asbestek") have stated in deposition testimony that Asbestek sought and received oral permission from Anthony Paganelli of Safe to conduct asbestos abatement at the Site under Safe's Ohio contractor's license. Mr. Paganelli has denied this in his affidavits but he has not been deposed. In spite of Safe's efforts to make Asbestek admit it stole the license and covered up such alleged theft, Asbestek repeatedly affirms that permission was given by Mr. Paganelli and consistently denies that the license was stolen. It is EPA's contention based on the testimony and documents thus far that Asbestek received permission from Mr. Paganelli and that subsequent actions by Asbestek are consistent with believing it had authority to proceed under Safe's license. The materials you have submitted in attempting to persuade U.S. EPA that permission was never granted have been insufficient to cause U.S. EPA to alter its position as to Safe's liability or as to the appropriateness of Safe as a respondent to the UAO. EPA considers Safe to be jointly and severally liable with Asbestek and Nationwide Demolition as operators at the time of disposal and/or persons who arranged for disposal under Section 107(a) of CERCLA, 42 U.S.C. § 9607(a), with respect to the asbestos contamination at the Site. Safe's offer of settlement is insufficient in light of Safe's liability and the degree of asbestos-related work to be done at the Site, the cost of which is likely to be multiple times that of your offer.

Thus, tomorrow's due date for Safe's revised notice of intent to comply and revised workplan for the asbestos stands. In the event of non-compliance, EPA will explore its options for enforcement of the UAO. Section VII of the UAO provides for statutory penalties for non-compliance with the UAO. These include penalties of up to \$32,500 per violation per day, punitive damages of up to three times the amount of any costs incurred by the United States due to the violation, and judicial enforcement of the Order.

If you have any questions, please contact me at (312) 353-6181.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Chow", with a long horizontal flourish extending to the right.

RE: Unilateral Administrative Order Docket No. V-W-10-C-950
Cleveland Trencher Site, Euclid, Ohio
Replying to the Attention of S-6J

Dear Mr. Karl:

On October 21, 2010, Safe Environmental submitted (1) its Notice of Intent to Comply to the extent that it was liable and (2) its Work Plan and Health and Safety Plans. In support of its Notice of Intent to Comply, Safe Environmental cited its October 20, 2010 letter which identified substantial evidentiary support that it was not even remotely liable as a de micromis party.

On November 8, 2010, the Agency notified Safe Environmental that Safe Environmental's Intent to Comply lacked clarity and the Work Plan and Health and Safety Plans were deficient. The Agency issued a seven-day deadline for Safe Environmental to provide clarity and modify deficiencies. The Agency (1) failed to address the factual content of Safe Environmental's October 20, 2010 letter, (2) failed to provide its basis for continuing to hold Safe Environmental liable and (3) rejected a settlement proposal. On November 10, 2010, the Agency extended the deadline for Safe Environmental to provide clarity and modify deficiencies to November 23, 2010.

On November 18, 2010, at Safe Environmental's request, Safe Environmental's counsel met with Regional Counsel Mr. Kevin Chow and Stephen Wolfe to discuss potential remediation and removal cost estimates for the Site and whether the Agency would negotiate compliance by Safe Environmental proportionately. Safe Environmental proposed the option of executing a portion of the removal and remediation at the Site. The Agency indicated that Safe Environmental was obligated to comply with and plan for the entire removal and remediation of the site. Safe Environmental's proportionality proposal was rejected. On November 22, 2010, Safe Environmental offered a settlement figure of fifty thousand dollars (\$50,000.00) to the Agency to avoid litigation and be removed from further liability. Safe Environmental's monetary offer was rejected.

Safe Environmental has made every conceivable effort to cooperate and comply with the Agency: (1) it is the only respondent to submit an intent to comply with respect to asbestos remediation and removal; (2) it is the only respondent to submit a Work Plan and Health and Safety Plan that addressed asbestos abatement and removal; (3) it has met with the Agency in person in order to discuss any and all alternatives to assisting the United States government even though Safe Environmental has established that it had no contact in any form with the Site; (4) it has invited the Agency to attend depositions; (5) it has provided the Agency with a comprehensive assessment of actions (or lack thereof) of all respondents at the Site; (6) it has provided thirty-seven (37) exhibits that support the assessment; (7) it has provided the entire transcripts of depositions of Mr. Amaya and Mr. Vadas wherein the Agency's tenuous findings of fact are refuted; (8) it has waived Freedom of Information Act protection so that the Agency was free to conduct any investigation of its own; (9) it provided all known contact information for Mr. Amaya to the Agency upon the Agency's request; (10) it provided evidence of Mr. Amaya's and Asbestek's criminal proceedings in Cuyahoga County and current violations of court order; (11) it has kept in constant phone and e-mail communication with the Agency; (12) it has proposed the option of a proportional removal and remediation which was rejected; and (13) it has offered a monetary settlement which was rejected. The Agency's response to all of these efforts have been rejected and disregarded. Consequently, Safe Environmental is unable to provide a more specific intention to comply than that already submitted. Safe Environmental submits, as it did by the original deadline, that it will comply with the Order to the extent that it is liable.

Safe Environmental disagrees with the Agency's position that Safe Environmental's Work Plan and Health and Safety Plan are deficient. The Agency provided "blank, generic" work plans as a guide for Safe Environmental to reformat its submitted plans. As the Agency admitted, the guides "are examples from other sites; any plan for the Cleveland Trencher Superfund Site must properly address site-specific conditions." During an in-person meeting with the Agency on November 18, 2010, Safe Environmental addressed concerns about site specific conditions, including its proposed assessment that contamination at the Site may be so extensive that demolition and removal of all materials at the Site would be the only possible way to achieve decontamination of the Site. The Agency agreed with this conclusion but indicated that the work plan need only address asbestos remediation and removal. The Agency would not provide its expectations as to how this inconsistent view could be resolved. Further, the Agency would not address Safe Environmental's concerns about asbestos contamination in separate structures that were unrelated to Mr. Amaya's improperly abated portions. The Agency's failure to address specific issues does not allow Safe Environmental to provide a more specific Work Plan and Health and Safety Plan than the plans submitted by the original deadline.

The Agency relies on a single claim of Mr. Amaya in its finding of liability against Safe Environmental. Mr. Amaya, who pled guilty to crimes in Cuyahoga County, Ohio for his actions at the Site, refuted his own claim in his video-taped deposition. Safe Environmental regrets that the Agency has failed to acknowledge Mr. Amaya's admissions and release Safe Environmental as a respondent. Safe Environmental further regrets that the Agency would not provide Safe Environmental with the opportunity for proportional removal and remediation or the opportunity to settle the matter monetarily.

Very Truly Yours,

A handwritten signature in black ink, appearing to read "P. Thomas", written over a horizontal line.

Re: Re: Cleveland Trencher Superfund Site, Euclid, OH
Unilateral Administrative Order
Docket No. V-W-10-C-950

Dear Mr. Thomas:

On November 8, 2010, you received a letter signed by On-Scene Coordinator Stephen Wolfe on November 5, 2010, informing you that pursuant to the above-referenced Unilateral Administrative Order and its amendments (collectively, the "UAO"), the U.S. Environmental Protection Agency, Region 5 disapproved the asbestos workplan and health and safety plan submitted on October 21, 2010 on behalf of your client, Safe Environmental Corporation of Indiana ("Safe"), and required the submittal of a revised asbestos workplan and health and safety plan, a revised notice of intent to comply stating what actions Safe intends to take to comply with the UAO, and additional contractor information. The deadline for these revisions as extended by my letter of November 10, 2010, was November 23, 2010. I am in receipt of your letter dated November 23, 2010, and am responding to the statements therein.

You state that EPA "failed to address the factual content" of Safe's October 20, 2010 letter, and "failed to provide its basis for continuing to hold Safe Environmental liable". On the multiple occasions when we have talked (going back for months now), I have explained to you EPA's basis for holding Safe liable, which was reiterated to you in my letter of November 22, 2010. I have also explained to you on multiple occasions that none of the exhibits, materials, or letters that you have supplied EPA pertaining to Asbestek's claim that it received permission from Anthony Paganelli to use Safe's Ohio contractor's license has caused EPA to alter its position on Safe's liability. While you have asserted that Asbestek is lying and that it stole the license and covered up such alleged theft, Asbestek categorically denies your accusations and I have repeatedly explained to you that it is EPA's contention that Asbestek's actions were consistent with a belief that it indeed had permission.

929-8
12/6/10

You state that during the November 18, 2010, in-person meeting between Safe and EPA, Safe “proposed the option of executing a portion of the removal and remediation at the Site”. Neither Mr. Wolfe nor I have any recollection of hearing any such proposal during the meeting, nor do we understand what you mean by “proportional”. You further state that “Safe Environmental’s proportionality proposal was rejected.” Mr. Wolfe and I have no recollection of discussing, much less rejecting, any such proposal. The only “proposal” made during the meeting was your concept of a cash-out settlement, not a proportional work proposal. You requested EPA to provide you a proposed settlement figure, which we were not prepared to give. Instead we informed you that we would inform our management of any specific monetary proposal that you would have, and that we would attempt to respond quickly if we were to receive your monetary proposal in a timely manner. You set forth Safe’s cash settlement offer in a letter of November 22, 2010, which was rejected by EPA in a response to you dated the same day.

You state that Safe “disagrees with the Agency’s position that Safe Environmental’s Work Plan and Health and Safety Plan are deficient.” Mr. Wolfe’s letter specifies the reasons why EPA considers the plans deficient, including the lack of an expeditious schedule and a Quality Assurance Project Plan (“QAPP”). Your letter of November 23d does not address these deficiencies, nor does it include a revised workplan that includes such items.

You state that during the November 18th meeting:

Safe Environmental addressed concerns about site specific conditions, including its proposed assessment that contamination at the Site may be so extensive that demolition and removal of all materials at the Site would be the only possible way to achieve decontamination at the Site. The Agency agreed with this conclusion but indicated that the work plan need only address asbestos remediation and removal. The Agency would not provide its expectations as to how this inconsistent view could be resolved. Further, the Agency would not address Safe Environmental’s concerns about asbestos contamination in separate structures that were unrelated to Mr. Amaya’s improperly abated portions.

EPA does not believe there was any inconsistency in what EPA said about asbestos conditions at the Site and its expectations about how such conditions are to be addressed. EPA agreed that asbestos contamination at the Site is “extensive”, in that large quantities of construction and demolition debris are present and vulnerable to the elements at the Site and that large quantities of such debris are asbestos-containing materials (“ACM”). In response to your question during the meeting about how any potential non-ACM debris would be dealt with, EPA expressed to you that if EPA were to conduct the work, it might be more cost-effective and more efficient to treat all debris materials as ACM for disposal purposes due to pervasive presence of asbestos, rather than undertake the effort and expense of sampling and segregating all volumes of materials into ACM and non-ACM waste streams for disposal purposes. EPA expressed to you that any potential cost savings from segregating the debris might be minimal. Assuming for purposes of argument that Safe proceeded with conducting asbestos work under the UAO, Safe would be free to either dispose of all debris as ACM or to segregate non-ACM from ACM for disposal purposes; either would be acceptable to EPA.

With regard to the issue raised by Safe during the meeting of standing structures at the Site and whether they would need abatement and/or demolition, Safe never asked EPA a specific question about it. During your caucus, Mr. Wolfe and I discussed the issue. Upon your return from your brief caucus, EPA did not receive any questions about it and the topic appeared to have been dropped, and no other workplan issues were raised after the caucus. If Safe had continued to solicit guidance about the structures after the caucus and before winding down the meeting, EPA would have responded by saying that the UAO specifically identifies asbestos-contaminated building debris and that it would be unlikely that standing structures that pose little or no risk of releases of asbestos to the environment would fall within the scope of the UAO.

You state that EPA's "failure to address specific issues does not allow Safe Environmental to provide a more specific Work Plan and Health and Safety Plan than the plans submitted by the original deadline." As noted above, EPA did address the "specific" but few workplan questions that Safe raised during the meeting. Regardless, the issue of workplan specificity appears to be a moot one for Safe, since Safe has not provided a revised workplan to include any scope of asbestos removal, has not stated that it is standing on its originally submitted workplan, has not stated that it intends to even implement its original workplan, and has not provided a statement that it intends to conduct any work at the Site, "proportional" or otherwise.

You state that Tomas Amaya of Asbestek, Inc. has "refuted his own claim in his videotaped deposition" that he received permission from Anthony Paganelli to use Safe's Ohio contractor's license. To the contrary, Mr. Amaya repeatedly reaffirms his claim during the deposition.

With respect to the issue of Safe's notice of intent to comply (which was due November 23, 2010, and which was required by Mr. Wolfe's letter to be revised as a statement of what actions Safe intends to undertake under the UAO), Safe merely reiterates its statement of October 21, 2010, which is that "it will comply with the Order to the extent it is liable". Safe is a respondent under the UAO. Section V, Paragraph 1 of the UAO requires an irrevocable notice of intent to comply. In that Safe has not revised its notice of intent to comply or otherwise identified what actions it will actually undertake under the UAO, has not set forth an actual proposal for a "proportional removal and remediation" under the UAO, and has neither submitted a revised workplan for the work ("proportional" or otherwise) or a statement that it is standing on its original workplan and intends to implement such, EPA is concluding that as of November 23, 2010, Safe declines to perform any of the response activities identified in Section V, Paragraph 3 of the UAO. Failure to perform response activities identified in the UAO constitutes non-compliance with such UAO.

With respect to the workplan and health and safety plan which were required to be revised and resubmitted today to include, among other things, an expeditious schedule and a QAPP, no revised plans were submitted on November 23, 2010. Safe did not provide any further contractor information either, as required by Mr. Wolfe's letter. Thus, Mr. Wolfe's disapproval

of the original plans of October 21, 2010, stands, and Safe is considered by EPA to be in non-compliance with Section V, Paragraph 3.1 and Section V, Paragraph 2 of the UAO.

In the event of non-compliance, Section VII of the UAO provides for statutory penalties for non-compliance with the UAO. These include penalties of up to \$32,500 per violation per day, punitive damages of up to three times the amount of any costs incurred by the United States due to the violation, and judicial enforcement of the Order. EPA will now consider its options for enforcing the UAO.

For any questions, please contact me at (312) 353-6181.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Chow", with a long, sweeping horizontal stroke extending to the right.

From: [Patrick Thomas](#)
To: Chow.Kevin@epamail.epa.gov
Bcc:
Subject: Nationwide Demo. - JLLP #929-8 -- PRIVILEGED COMMUNICATION
Date: Wednesday, June 29, 2011 8:34:00 PM

Kevin,

As you are aware, we were informed by the EPA in May 2011 that the cleanup costs at the Cleveland Trencher site ("Site") would be less than previous estimates. Since that time, Safe Environmental has diligently worked with the EPA and other PRPs to consider the complex details necessary to reach a resolution. This includes consideration of the related claims pending in Richland County, Ohio, Court of Common Pleas, which involve a number of PRPs. On June 15, 2011, you indicated that the EPA would need some "agreement in principle" by the end of June or some indication that the parties were making a concerted effort to commit to the cleanup. I am confident that the record will reflect Safe Environmental's strong commitment to seeking a resolution.

On June 15, we requested that Mr. Wolfe attend a Site inspection with Safe Environmental on June 23. Mr. Wolfe agreed to meet us on June 27 as this was the only date available to him. On June 27, Rick Lovelace of Safe Environmental, Mike Bartos of Hygieneering Corporation, John Savage and Emory Wolfe of Precision Environmental and I, all on behalf of Safe Environmental, met with Mr. Wolfe at the Site. Mr. Wolfe provided assistance to us in our determination of EPA requirements associated with friable asbestos cleanup. During the Site inspection, Mr. Wolfe indicated that the EPA would not likely commence its cleanup efforts until August 15. At no time did Mr. Wolfe indicate that the EPA sought to commence cleanup through its own contractors in early July. Had he done so, I would have immediately addressed with you on June 27 our need for adequate time to achieve a resolution.

Please let the following memorialize our conversations today.

In our first conversation today, you provided the following information. Mr. Wolfe met with an EPA contractor at the Site yesterday, June 28, and, without consultation with you, determined that (1) on July 5, EPA contractors would enter the Site to establish water and electrical lines; (2) on July 11, EPA contractors would begin mobilization at the Site; and (3) on July 18, EPA contractors would commence cleanup. You also indicated that Safe Environmental would be required to submit a Work Plan no later than tomorrow, June 30. Prior to this conversation, Safe Environmental had not been instructed that a Work Plan was due by the end of June. This accelerated, hitherto undisclosed schedule has frustrated our efforts to achieve a resolution as we received our written estimates only yesterday, June 28. Additionally, as you know, we are

simultaneously attempting to work on arrangements with the insurer of Nationwide Demolition and Asbestek. Consequently, I requested of you that the EPA reconsider its June 30 deadline for a Work Plan and its efforts to commence cleanup in early July. I also requested that the EPA provide information regarding the unknown location and size of a buried asbestos pit identified in the UAO, as this information would affect our estimates and therefore any desired agreements between the parties. As of this communication, we lack this necessary information.

In our second conversation today, you provided information relating to costs associated with the EPA's initiated action. As you provided a correction on some of the costs in our subsequent conversation, I have identified the costs below. I also requested that the EPA extend its current schedule by two weeks to give the parties the opportunity to take necessary steps based on the recent estimates and to work out arrangements with Nationwide's and Asbestek's insurer.

In our third conversation today, you provided the following information.

1. The EPA will not extend its deadlines and it plans to commence action on July 5.
2. The costs associated with EPA work the week of July 5 will involve establishing electrical lines and water lines and will incur direct costs of \$20,000 and indirect costs of 66% of that amount, or \$13,200, for a week's total of \$33,200. Should we comply and commence work after this week, we will be able to use the utilities but will owe the EPA these costs in addition to any costs associated with the cleanup.
3. The costs associated with EPA work the week of July 11 will involve mobilizing two work trailers at a cost of \$500.00 each per month plus \$1000.00 each for set up costs for a total weekly cost of \$2,250.00 for the week of July 11, and \$250.00 per week thereafter.
4. The EPA will commence cleanup on July 18. At any time, we may take over the cleanup but will be responsible to the EPA for its incurred costs plus costs relating to our own efforts.
5. **June 30 is now our INTENT TO COMPLY deadline.** At no time prior to this discussion were we informed that June 30 was the deadline for compliance. You stated that you would attempt to gain an extension of this deadline to July 8, but this extension, if granted, will not change the EPA's scheduled start date of July 5.
6. You have acknowledged that Safe Environmental may submit a

Work Plan prior to a notice of Intent to Comply but that the Work Plan will not be binding absent an intent to comply. You also indicated that as it is not binding, the EPA, if it finds the Work Plan acceptable, will label it "approvable" pending submission of an intent to comply.

7. The EPA will not consider a monetary settlement from Safe Environmental.

Whether or not the EPA commences any work, we would be responsible for oversight costs, should we perform part of all of the cleanup, as follows:

1. \$115/hour for the oversight of an EPA contractor;
2. \$40/hour for Mr. Wolfe; and
3. \$75/hour for Mr. Chow.

While you could not give a predictably reliable figure, these three individuals could or would be present at the Site as often as needed for the duration of the cleanup and would be involved in a final inspection of the Site.

Whether or not the EPA commences any work, all PRPs are subject to "past costs" associated with Mr. Wolfe's involvement in the site. You indicated that Mr. Chow's charges for oversight work are not retroactive, such that Mr. Chow's work on this project prior to cleanup is not a "past cost."

Please let me know if I have not accurately described our conversations.

As you know, we have put extensive effort into a possible resolution to this matter. Our learning for the first time today, especially in light of our site inspection with Mr. Wolfe on Monday, (1) that the EPA seeks to commence work on July 5 and (2) that our intent to comply deadline is now June 30, has compromised our efforts. Please consider this an appeal for an extension of the EPA's schedule so that Safe Environmental may have the necessary time to work out a resolution. I am confident that you are aware from our many discussions that there are a number of parties and complex issues involved in this attempted resolution.

Please understand that I have no authority to bind my client and make this appeal in order to attempt a resolution on behalf of Safe Environmental. As you are aware, Safe Environmental maintains that it is less than a de micromis contributor and that it had absolutely no

involvement in any activity at the Cleveland Trencher Site.

I appreciate your time and attention to this matter.

Kevin,

Per our conversation this afternoon, you have provided the following information:

1. The EPA has agreed to extend the Intent to Comply to July 8. A modified intent to comply prior to July 8 will be accepted and may be well taken by the EPA such that the EPA will not immobilize on July 11. A bona fide intent to comply submitted today, June 30, or even tomorrow, July 1, would not guarantee that the EPA will refrain from entering the site on July 5.
2. The EPA has agreed to extend the Work Plan deadline to July 8. A Work Plan submitted prior to the intent to comply is not binding and will be reviewed by the EPA and a response will be provided to us.
3. Past costs are costs the EPA has incurred since day zero. You will provide the past costs to us when you return to the office on July 5. These costs are unknown and could be in the \$50,000 to \$100,000 area, but you acknowledged that you are not aware of the number at this time.
4. EPA has access agreements with all three owners that will allow us to lawfully gain access to the site for any cleanup performed. You will provide us with the agreements by July 5.
5. You will provide us with the buried asbestos pit size and location as soon as possible.
6. You have agreed to review our costs estimates to let us know if we have overlooked or miscalculated costs. Please see below.

Cleanup costs responsibility of Safe
Environmental and/or other PRPs

Work Plan responsibility of Safe
Environmental and/or other PRPs

Direct and indirect costs for week of July 5 (if performed by EPA)
\$20,000 + 66% (13,200) = \$33,200

Direct and indirect costs for week of July 11 (if performed by
EPA) Mobilization of two trailers at \$2000 per trailer) \$ 4,000

Oversight costs
