2 CERTIFIED MAIL

3 October 5, 2010
Mr. John Vadas

4 7206 Southeastern Avenue
Hammond, Indiana 46324

5

6 IN RE: NATIONWIDE vs. ASBESTEK, et al.
7 DATES OF DEPOSITION: Part one, August 24, 2010
Part two, September 3, 2010

8 Dear Mr. Vadas,
9 Your deposition in the above-entitled cause is now
ready for reading and signing as required by law.

10 Please call the Signature Department upon receipt
of this letter to schedule an appointment to come
to the above address to read and sign your
deposition. You have 28 days from the date of this
correspondence in which to appear for reading and
signing.

11 If you fail to appear or notify us so that we may
make arrangements for another appointment, your
deposition will be completed and forwarded to the
attorneys and will be "... used as fully as though
signed."

12 Procedure outlined in Rule 207 (a) of
the Illinois Supreme Court Rules.

13 Procedure outlined in Rule 30 (e) of
the Rules of Civil Procedure for the U.S.
District Courts

14 Sincerely,

15 Margaret Satina Court Reporter,
16 Signature Department Liza Marie Regan
17 cc: Mr. Thomas, Mr. Kramer

Regarding: Ohio application for business (Copy 4 pages)
 Certificate of Insurance and Indiana Contractors License (2 pages)

Comments:
 Molly,
 We sent off a check today for the registration fee to do business in Ohio along with the application and a copy of our certificate of incorporation.
 I spoke with Mike today and told him we could probably start the transit as soon as Friday. I contacted Allied waste and they are sending us a credit application for the waste dumpsters. They are also faxing us over a profile sheet from the landfill for the waste manifest and I.D. #
 Tammy McCloud from the landfill said she could get the non-fragile waste profile form approved in one day, so if all goes well we should be able to get a delivery by Friday on the dumpsters
 We are getting 4 workers set up to start out on Friday, and they will work the week end as well.
 I still need a copy of the asbestos report on the Euclid property. Mike said he was going to over night it but we still have not received it so could you please look into getting us that info
 Thanks;
 John Vadas

For Asbestos Contractor # 18A000294

Based upon the review of your license application, the Office of Air Quality has determined that you have fulfilled the requirements of 325 IAC 18 and are eligible for licensing in the following discipline: Asbestos Contractor.

Enclosed is your card which is your Asbestos Contractor license. This card must be available for review at all times while you are implementing an asbestos project.

This license may be revoked, pursuant to 325 IAC 18-1-7, if you:

- (1) Violate any requirements of these rules (325 IAC 18), 325 IAC 14-10, or any requirement of the Asbestos-Containing Materials in Schools Rule or any other federal, state, or local regulation pertaining to asbestos in buildings or to asbestos projects.
- (2) Falsify information on your application for licensing.
- (3) Fail to meet any qualifications specified in 325 IAC 18-1-4.
- (4) Conduct asbestos removal or related asbestos handling activity, in a manner which is hazardous to the public health.

Your license is valid effective 07/31/2007, and will expire on 07/31/2008, as indicated on your card. We suggest that you attend the required training and submit an application for license renewal early to insure your license does not lapse. NOTE: 325 IAC 18-1-4(a) and 325 IAC 18-1-4(e) require that any individual who has an eighteen (18) month lapse between any two training courses of the same discipline to attend an initial training course for the discipline in which they are seeking a license. In order to avoid re-taking the initial training course you must have achieved a retainer in the discipline you are seeking a license within eighteen (18) months from the date of issuance of your last training course certificate.

Sincerely,
Dan Starnes

Regarding: Proposal / contract for Euclid, OH / Landfill and Hauling

Comments:
 Molly,
 The following page is our proposal for the Euclid Ohio project. Could you and Mike please review it and get back to us so we can get the ball rolling.
 I spoke with Chris Daniels from Allied waste this morning and the landfill they use for asbestos is an Ottawa outside Sandusky, not Overland in Loraine County. That is where they take general debris.
 The landfill in Ottawa accepts both friable and non-friable waste. I will get you a copy of the waste profile information as soon as it is approved. Non-Friable usually takes only one day to approve so we should have no problem on the transit. The friable asbestos profile may require two separate profile approvals and since we have two different types of materials it may require two separate profile numbers for the waste streams. I don't think they care as long as the friable is separate from the non-friable. Anyway please call me if you have any questions about the proposal or if you need a work plan. I am putting that together now just to C.Y.A. and the State may want to see something if they make a visit. Thanks again for the opportunity to work with your company. We will do our best to get this project completed quickly. If you could fax a copy of the proposal to both fax numbers I would appreciate it as I work out of my office as much as the office at Asbestek.

Thanks;
 John Vadas

 Mr. Mike Collins, President

August 16, 2007
 RE: Asbestos abatement work proposal
 20100 St. Clair Avenue, Euclid, OH

Dear Mr. Collins:

Asbestek, Inc. proposes to remove and dispose of the 11,400 square feet of non-friable transite that is located at 20100 St. Clair Avenue, Euclid, Ohio (the former Cleveland Trusker Company) and referenced in the asbestos sampling survey dated 8-09-07 performed by Allied Environmental Services Inc.

Asbestek, Inc. has registered with the Secretary of the State to perform work in Ohio as a foreign for Profit Corporation. The initial work is non-regulated Category II, non-friable which we can begin A.S.A.P.

We understand Nationwide Demolition will support our efforts by removing any trees or other materials at the site that may impede the access to the siding as well as provide us with a boom lift to reach the elevated panels and also provide us with a source of water and electricity. Protocol for this activity, although not regulated by the State of Ohio, Department of Environmental, will require us to maintain the integrity of the panels by not breaking them and causing them to become friable. We will document panels that have pre-existing structural cracks and use wet methods and encapsulate areas that may break during abatement procedure. All panels will be placed in double lined containers, provided by the landfill and manifested prior to shipment, indicating type of materials and quantities shipped per waste stream.

We further propose to remove and dispose of all the friable asbestos referenced in the same survey that includes 6,700 square feet of spray on insulation in the maintenance shed and approximately 1,300 linear feet of asbestos covered pipe throughout the facility. These abatement activities will require a 10 day notification to the State of Ohio, Department of Environmental, Asbestos division as well as friable removal protocol.

We will require a partial payment of \$20,000.00 dollars upon completion of the transite panels or within two weeks from the start of the project, whichever comes first and the balance of \$20,000.00 dollars to be paid upon completion of the remainder of the friable portion of the project. Lump sum project total is \$40,000.00.

Dear Mr. Collins:

Asbestek, Inc. proposes to remove and dispose of the 11,400 square feet of non-friable transite that is located at 20100 St. Clair Avenue, Euclid, Ohio (the former Cleveland Trusker Company) and referenced in the asbestos sampling survey dated 8-09-07 performed by Allied Environmental Services Inc.

20190 St. Clair Avenue, Euclid, OH

Dear Mr. Collins:

Asbestek, Inc. proposes to remove and dispose of the 11,400 square feet of non-friable transite that is located at 20190 St. Clair Avenue, Euclid, Ohio (the former Cleveland Trust Company) and referenced in the asbestos sampling survey dated 8-09-07 performed by Allied Environmental Services Inc.

Asbestek, Inc. has registered with the Secretary of the State to perform work in Ohio as a Design/Build Corporation. The initial work is now required Category II, non-friable which we can begin ASAP.

We understand Norcross Demolition will support our efforts by providing any forms or notices necessary at the time that they provide the access to the siding as well as panels to which a license is to reach the elevated panels and also provide us with a source of water and electricity. Pursuant to the agreement, although not required by the State of Ohio, Department of Environmental Control requires we try to maintain the integrity of the panels by not handling them and covering them to become friable. We will document panels that have pre-existing structural cracks and use wet methods and encapsulate areas that may break during abatement procedures. All panels will be placed in double lined containers, protected by tar health and maintained prior to shipment, indicating type of materials and quantities shipped per waste stream.

We further propose to remove and dispose of all the friable asbestos referenced in the same survey that includes a 7,000 square feet of spray on insulation at the same location and approximately 1,000 square feet of asbestos covered pipes throughout the facility. These abatement activities will require a 10 day notification to the State of Ohio, Department of Environmental Control, detailing as well as friable material proposed.

We will require a partial payment of \$30,000.00 dollars upon completion of the remove panels or within two weeks from the start of the project, whichever comes first and the balance of \$20,000.00 dollar to be paid upon completion of the remainder of the friable portion of the project. Lump sum project total is \$50,000.00.

Accepted by Norcross Demolition / Mr. Mike Collins, President or company officer signature and title

Regarding: Copy of 10 day notification E.P.A. OHIO / Copy of envelope and certified ship / Instructions and contact sheet
Comments: Tomas. I sent off the 10 day notification to the E.P.A. in OHIO. When I talked to Mike he said he did not have a License number listed in section V, so I told him I would put N/A for not applicable. I told him that the original notification has to be mailed or hand delivered and any revisions can be faxed after that. When we go into the friable removal we will send a revision stating the dates for that operation. I told him the ten day would put him at a start date of September 5. He said he was going to start demolition before that date?? I said that was up to you but we can't remove friable until we get licensed and put in our 10 day notice with the Ohio Department of Health Asbestos Program. I am working on the invoice now and will fax it to Molly in the morning. I called the rental company and told them we would need the bobcat all day today and possibly tomorrow. If we get it back by 8:30 OHIO time they will only charge us 2 days. After 8:30 there is an additional 4 hour rate, then a 24 hour rate. Its not much more for 24 hours so if they need it all day tomorrow they can return it by 6:00 P.M. for the 3 day rate. I said that we were going to use a different credit card when we return the bobcat. Make sure Juan tells them that and get the number to them.
Handy Rents: 216-481-5686 or get it to me and I will call it in.

Regarding: 10 Day notification for Demolition and Renovation / Ohio E.P.A.

Comments:
Mike & Molly,

I sent off the 10 day E.P.A. Demolition notification via certified mail yesterday on the 22nd. They go by date sent and the first original notification has to be mailed or hand delivered. All subsequent revisions can be fixed i.e. when we start the friable asbestos or if any corrections need to be made to the original it will not change the 10 day time frame already established. I was told by Mark Needham from the Ohio Department of Public Health that the friable removal prior to demolition did not require an asbestos contractor, licensed workers or any other forms except to register with the Secretary of State, which we did. We used Ohio licensed workers and an Ohio supervisor any way so they will be ready to do the friable when that 10 day goes through. I apologize for not getting this out sooner, but if you start before the 10 working days, our defense is going to be the information I was given by both Mark Needham and Jeff Churn, the office in charge of the asbestos program for work performed in the State of Ohio was incomplete and we were not aware of this notification or we would have sent it out when we applied for the Foreign Corporation certificate. At any rate the non-friable transite will be complete and we will be off site by 2:00P.M. - 3:00P.M. Today with a total of 5-30 cubic yard boxes generated. (The survey indicated 11,400 S.F.) I think the Environmental specialists missed all the transite on the roof areas and maybe some interior walls because it should have fit easily into a box. I will fix over copies of the waste manifests as soon as the crew gets back to Hammond. We will move on the friable A.S.A.P.

Regarding: Invoice for non-friable work in Euclid, OH

Mike & Molly,

The following invoice is for the substantial completion of the non-friable work that we started on Saturday 8-18-07 and completed Thursday 8-23-07. We used a crew of 3 workers and 1 supervisor as well as my on site intervention to coordinate dumpsters, waste manifests and rental equipment. I will overnight you the waste manifests and a project log to detail the work up to this point as well as a copy of our certificate with the Secretary of State to work in Ohio and a projected work schedule / plan for the next phase that includes the friable T.S.I. on the pipes and the spray-on insulation in the rest of the warehouse / manufacturing facility. If you could please send us a check for the work performed up to date, that will go a long way in helping us get the next phase of this project under way. We are looking into working with a business associate who has a license for environmental work in Ohio, which would mean we would not have to wait the 2-3 weeks for approval before we put in our 10 day. We are still going to get our license for Ohio, but this option will help expedite the friable portion of the project. Tomas Amaya, my partner has a very good relationship with this contractor and has supervised many projects for them. I was their Project Manager / Estimator as well.

P.S.
If you could also overnight the survey for the Indianapolis job, we could start putting together a proposal for that as well. We are currently licensed in Indiana, Minnesota and Alabama and we are currently working on our Ohio and Illinois asbestos abatement licenses.

Thanks, John

DATE	DESCRIPTION OF WORK COMPLETED / PROJECT SUMMARY	# MEN ON SITE	TOTAL % COMPLETE
8-18-07	Mobilized equipment and materials to project site. Stained removal of transite panels from all accessible areas from roof level. Compared project survey with building condition. Documented job site with photos of friable areas for next phase. Set up crew with schedule for tomorrow. Called hauling company to schedule dumpsters A, S, A, P.	1 Project Manager & 5 Company owner 3 licensed asbestos workers and 1 Supervisor	10%
8-19-07	Crew continued working on roof areas and all lower accessible areas that they could reach with out a man lift. Crew used a bucket to access some panels that were up higher than our work platforms could reach.	1 Supervisor / 3 Workers	25%
8-20-07	Crew continued working on wall panels in far south-east end of building where Nationwide wants to start demolition. Spotted 2-30 C.Y. dumpsters. No friable material in this area to impede demolition after transite is removed. Received waste manifests from Allied Waste. Schedules lift on site late P.M.	1 Project Manager 1 Supervisor and 3 workers	40%
8-21-07	Removal of higher panels and completed filling 2 dumpsters. Called for switch and ordered 2 more dumpsters. Rented Bobcat to continue working. New dumpsters will be switched tomorrow morning. Waste manifests prepared by J.V.	1 Project Manager 1 Supervisor and 3 workers	60%
8-22-07	Crew removed all the transite on the North and East sections. John Vadas called Allied waste for an additional dumpster after crew filled the 3rd and 4th. Allied waste brought out manifest. 5- Dumpsters total this phase. Manifests filled out by supervisor.	1 Supervisor and 3 workers	80%
8-23-07	Crew is working to complete all non-friable and will de-mobilize equipment. Returned bobcat to rental. Sent out gear rack and chain saw in area designated by Nationwide representative.	1 Supervisor and 3 workers	100%

Due upon receipt at completion of non-friable phase, per our agreement

THANK YOU FOR YOUR BUSINESS

TOTAL DUE: \$20,000.00

Generator Name: FORMER CLEVELAND TRENCHER COMPANY
Address: 20100 ST CLAIR AVE
EUCLID OHIO 44117

Waste Stream(s): FRIABLE INSULATION

Waste Stream approval number(s): L16 711678 03/31/08

Disposal Facility(s): OTTAWA CO LANDFILL

This package is just for your records and to give you your waste approval code that should be noted on your manifests. If you should have any questions or need new manifests or additional quantity of your current manifest please feel free to contact me at 440-774-3100 x 3228. Thank you for this opportunity to assist you with your waste disposal needs.

****Allied Waste requirement** - Please note, if this waste stream called for analytical testing it will be required each time the waste stream is recertified, whether or not there were any process changes. This is normally an every 3 year requirement but reference your expiration date because some waste streams are given less approval time.

Sincerely,
Tami McCloud

Regarding: Revision #1 on 10 day Demolition notice in Euclid, OH

Mike & Molly,

This is a copy of our revision to the EPA for your records. We are sending out the 10 day notice for the friable asbestos removal today via certified mail. I will fax you a copy this afternoon when I get it completed. We will be using Safe Environment Corporation of Indiana contractors' license.

Thanks, John

FAQs

Asbestos

Memoranda

Asbestos

The Asbestos program licenses and certifies companies and persons directly involved with the asbestos abatement industry. The program regulates contractors performing asbestos removal projects, project supervisors, project designers, workers removing asbestos, asbestos inspectors, buildings for asbestos-containing materials and developing plans to manage asbestos found in a facility, persons conducting air sampling for asbestos and the companies that provide required asbestos training. The Ohio Department of Health Asbestos program ensures the safety and quality of asbestos services by requiring persons to take approved training that is specific to the asbestos related activities in which they will be involved and by inspecting/auditing the activities of the program participants.

For questions on certification and licensure, asbestos hazard abatement projects and training course approvals please refer to the Frequently Asked Questions (FAQ) section.

1 THE VIDEOGRAPHER: My name is Nick Harvey. I'm
2 the video specialist with McCorkle Court Reporters,
3 located at 200 North LaSalle Street, suite 300,
4 Chicago, Illinois, 60601. I'm the camera operator
5 on August 23, 2010 for the videotaping of the
6 deposition of Tomas Amaya being taken at 123 North
7 Wacker Drive Chicago, Illinois, at the time of
8 10:33 a.m. in the matter of Nationwide Demolition
9 Services, LLC, plaintiff, versus Asbestek, Inc., et
10 al, defendants, versus Tomas Amaya, et al., third
11 party defendants filed in the Court of Common
12 Pleas, Richland County, Ohio, General Division,
13 case number 08-CV-2002.

14 Will counsel please identify themselves
15 for the record beginning with plaintiffs counsel.

16 MR. KRAMER: Jeff Kramer representing
17 Nationwide Demolition Services.

18 MR. THOMAS: I'm Patrick Thomas -- excuse me --
19 representing Safe Environment Corporation of
20 Indiana. We also have --

21 MR. GILBERT: Louis Gilbert representing Gary
22 Thomas and Joe Piscazzi from Mansfield, Ohio.

23 THE VIDEOGRAPHER: Will the court reporter
24 please identify herself and swear in the witness.

1 (Witness sworn.)

2 THE VIDEOGRAPHER: You may proceed.

3 MR. THOMAS: Thank you.

4 We also have present in the courtroom

5 Mr. Kevin Chow from the Environmental Protection

6 Agency and Rick Lovelace, president of Safe

7 Environment Corporation. We're here today to

8 conduct a deposition of Tomas Amaya.

9 Do I pronounce your name correctly, is it

10 Tomas?

11 THE WITNESS: Yes.

12 MR. THOMAS: Pursuant to Rule 30,

13 Mr. Amaya, have you ever had your

14 deposition taken before?

15 THE WITNESS: Yes.

16 MR. THOMAS: Okay.

17 So you probably know the rules. I'll just

18 briefly run over a few things.

19 As you know, we have a court reporter and

20 video camera so that this deposition is being

21 recorded two ways, stenographically and by video.

22 THE WITNESS: Yes.

23 MR. THOMAS: Okay.

24 Just make sure to keep your voice up and

1 to give complete answers when I finish speaking and

2 I'll also wait, of course, until you finish

3 speaking so we don't talk over each other so that

4 the court reporter can take down our answers

5 clearly. If you don't understand a question that I

6 ask or that Mr. Kramer or Mr. Gilbert may ask

7 later, just ask us to repeat the question, okay?

8 THE WITNESS: Yes.

9 TOMAS AMAYA,

10 called as a witness herein, having been first duly

11 sworn, was examined and testified as follows:

12 EXAMINATION

13 BY MR. THOMAS:

14 Q: If you would start by telling us your full

15 name, please?

16 A. Tomas Amaya.

17 Q. Okay.

18 And Amaya is A-M-A-Y-A?

19 A. Yes.

20 Q. Okay.

21 And if we can go off the record for the

22 answer to this question, can you give us your

23 Social Security number?

24 THE VIDEOGRAPHER: Off the record.

1 (Discussion off the record.)

2 BY MR. THOMAS:

3 Q. What is your date of birth?

4 A. 11-18-87.

5 Q. Sorry?

6 A. 11-18-87.

7 Q. What is your current address?

8 A. 6811 Kennedy Avenue.

9 Q. And that's in Chicago?

10 A. Hammond, Indiana.

11 Q. Hammond Indiana, okay.

12 And what is your telephone number?

13 A. (219) 308-0508.

14 Q. Okay.

15 And are you currently married?

16 A. Divorced.

17 Q. Divorced, okay.

18 How long have you been divorced?

19 A. Twice.

20 Q. Twice?

21 A. Yes.

22 Q. Okay.

23 When was the last time that you were

24 divorced?

1 A. About two, two, three years ago. I -- I

2 don't -- I'm not sure.

3 Q. Okay.

4 Your address at 6811 Kennedy, is that a

5 resident address?

6 A. Yes.

7 Q. Okay.

8 Do you also conduct business out of that

9 address?

10 A. Yes.

11 Q. Okay.

12 Do you hold any professional licenses?

13 A. Asbestos license, asbestos supervisor

14 license.

15 Q. Okay.

16 A. And lead supervisor license.

17 Q. And what are the sources of -- what's the

18 source of the asbestos license? Is that from

19 Indiana?

20 A. Indiana, yes -- no. Right now, just

21 Illinois.

22 Q. Okay.

23 Did you have one in another state at some

24 date prior?

1 A. No.

2 Q. Okay.

3 So you've — your — your asbestos

4 supervisor's license only comes from Illinois,

5 correct?

6 A. Yes. Right now, yes.

7 Q. You say right now.

8 Did you at a different time have another

9 one from —

10 A. Yes, I had from Ohio, I had from Illinois,

11 Indiana, Virginia, I think. I'm not sure.

12 Q. Okay.

13 And why do you no longer have those

14 licenses?

15 A. Because I'm no working in asbestos for

16 this moment.

17 Q. Are these licenses the type that require

18 renewal with a fee?

19 A. Yes.

20 Q. Okay.

21 And, for example, with Ohio, did you just

22 not renew the fee or was your license revoked?

23 A. No. I didn't renew the fee.

24 Q. Okay.

1 So that license was never revoked,

2 correct?

3 A. No.

4 Q. Okay.

5 Did you ever have an asbestos supervisor

6 license revoked from any state?

7 A. Nope.

8 Q. Okay.

9 And your lead supervisor, that's for lead

10 abatement, correct?

11 A. Yes.

12 Q. And your lead supervisor abatement

13 license, is that also in Illinois?

14 A. Yes, Illinois and Indiana.

15 Q. Okay.

16 May I ask why don't you have an asbestos

17 supervisor's license in Indiana?

18 A. I supposed to be renew it about three

19 months ago but didn't take the refresher class yet.

20 Q. Do you plan on doing that?

21 A. I will, yes.

22 Q. And what does the class require you to do?

23 A. Eight hour refresher class for asbestos.

24 Q. Okay.

1 Is that all in one day?

2 A. Yes, one day.

3 Q. And then do you take a test?

4 A. Yes.

5 Q. And if you pass the test, they give you

6 your —

7 A. Certificate, yes.

8 Q. Okay.

9 What does the certificate allow you to do

10 in Indiana?

11 A. Just work — work for a company. I can do

12 anything as a person, Illinois and Indiana.

13 Q. So with that asbestos supervisor's license

14 in Indiana, you can do asbestos abatement, correct?

15 A. Yes. I can supervise project.

16 Q. Right now in Indiana, you don't have that

17 license so you can't supervise, right?

18 A. Correct.

19 Q. Can you work with asbestos at all right

20 now in Indiana?

21 A. No. Even Indiana or Illinois, I cannot do

22 it because I don't have the refresher class.

23 Q. Okay.

24 Does it cost money to take that class?

1 A. \$200 — between \$200, \$250.

2 Q. And this is something that you plan on

3 doing in the future, correct?

4 A. Yes, in the future time.

5 Q. Okay.

6 And we'll talk about it later but it's

7 fair to say that your livelihood is asbestos

8 abatement, correct?

9 A. Yes.

10 Q. Okay.

11 You are 42 years old, correct?

12 A. Yes.

13 Q. Okay.

14 And tell us — tell us about your

15 professional career, when you first got started?

16 A. I started in Miami, Florida.

17 Q. Okay.

18 A. Work little bit over there, maybe two

19 months and then I moved to Denver, Colorado.

20 Q. Okay.

21 A. Work over there for two years, I think.

22 Q. Okay.

23 A. And then I move to Chicago, worked the

24 rest of — like almost 18 years. I think 18 years.
