ASBESTOS DAILY FIELD REPORT

FIELD OBSERVATIONS:

0700 Cecil Brannon on-site for RCS. Andrew Kiel for Weston Solution. Kenny Yates of Precision with 4 workers. 4 workers suit up in Tyvek suit + 1/2 face respirators. Work will be 2 workers cleaning up the area of the old paint shop (scrap paint from the contact putting it into drums) 1 worker will line 20yd Dumpster + Seal once loaded. 4 worker and keep debris wet. 1 worker will use a Excavator to load ACM Debris in to lined Dumpster and loaded cleaned metal into scrape boxes. Cecil Brannon set Air Samples
Temp 59°F Wind South 11 MPH Raining Now.

1000 Work on cleaning up old Dry Paint stop to wet because of rain. 1 worker using Excavator to load debris into lined Dumpster 2 worker seal line + Seal Dumpster 1 worker using Bobcat to move debris into P11 for loading

1100 lunch.

1230 4 workers Suit up Tyvek suit + 1/2 face respirators 1 worker on Excavator moving debris into P11 and load debris into Poly line Dumpsters 2 workers line + Seal Dumpster 1 worker using Bobcat to move debris into P11

1400 Workers using Excavator, in loader, + Bobcats to clean up debris on the East side and move debris into P11s for loading

1500 Precision Clean up for end of shift Cecil Brannon collect Air Samples

1530 Precision, Weston Solution + RCS off-site
Temp 62°F Wind Northwest @ 2 mph

3 loaded Dumpster off-site Today

 is using in loader (Backhoe) to remove rebaring that is hanging down
 0830 Enviro Serve on-site with a HEPA Vac Truck to Vac out Transformers. Once the Transformers
 are where Vac out Precision load-d Transformer on to truck and off-site
 1100 Enviro Serve off-site
 1200 Lunch
 1230 4 Workers set up. 2 Worker cleaning fireproofing in machine shop 1 Worker use Exuber to load Debris
 into lined Dumpster 1 Worker Keep Debris wet line Dumpster line 1 Seal Dumpster
 1400 Cecil Brannon set up Visit Inspected mechanical shop with Kenny Yates Area Passed
 One worker will keep Debris wet 1 Worker on Exuber Demo Building to Assemble between the
 to Building to cleanup fireproofing 2 Worker's clean Hoses
 1500 Precision cleaning for end of Shift
 1520 Precision Western solution and RCS off-site
 Temp 62° Temp North.

ASBESTOS DAILY FIELD REPORT

FIELD OBSERVATIONS:

0700 Cecil Brannan on-site for RCS Western solution on-site Kenny Yates on-site with 4 Workers
 4 Workers suit up Truck suite 2 Workers are using Pressure Wash guns to Clean the floors of the
 Building Northeast & Northcenter working South. 1 Worker is using a Erator to load
 Metal. 1 Work is washing the metal with fire hose. Workers loading Metal stops and
 line dumper with only load Debris then seal Dumpster before return to loading metal
 1000 4 Workers loading metal stop and go Back to Demoling the machinal stop this is being done to
 Assess the area between Building for cleaning
 1200 Lunch.
 1230 4 Worker suit up 2 Worker Clean floor Northeast using Pressure Washer and Equper 1 Worker load
 Metal into dumpsters while 1 Worker Cleanse metal with fire hose
 1500 Precision workers Cleanup for end of Shift.
 Temp 75° Wind 14 MPH Southeast
 1530 Precision, Western solution & RCS off-site

3 loads of Debi
