Notice of Intent to Issue Clean Air Act
Title V Federal Operating Permits
United States Environmental Protection Agency
Region 8, Air Program
Take notice that the United States Environmental Protection Agency (US EPA) has received applications to issue renewed operating permits that regulate air pollution emissions from the following sources located within the exterior boundaries of the Southern Ute Indian Reservation in La Plata County, Colorado:
BP America Production Company
Wolf Point Compressor Station
BP America Production Company
Florida River Compressor Station
These sources are required to obtain Clean Air Act Title V Permits to Operate in accordance with Part 71 of Title 40 of the Code of Federal Regulations. The permits will contain all the Clean Air Act requirements that apply to the sources and will require that the sources conduct monitoring sufficient to enable US

EPA and the public to determine whether the sources are complying with the air quality requirements that apply to them. These proceedings are subject to the administrative requirements of 40 CFR 71.11.

Members of the public may review copies of the draft permits prepared by US EPA, the statement of basis for the draft permits, the applications, and all supporting materials submitted by the sources at the La Plata County Clerk's Office in Durango, Colorado, the Southern Ute Indian Tribe's Environmental Programs Office (205 Ouray Drive, Building #293) in Ignacio, Colorado, and at the US EPA Region 8 office, in Denver, Colorado. All documents will be available for review at the US EPA Region 8 office Monday through Friday from 8:00 a.m. to 5:00 p.m. (excluding federal holidays).

If you have comments on the draft permits, you have 30 calendar days from the date of this notice to submit them. You have the right to request a public hearing on the draft permits. Requests for a public hearing must be made by the close of the 30 day public comment period, must include the issues proposed to be raised at the hearing, and must contain your reasons for requesting a hearing. If a public hearing is granted, the comment period will be extended through the date of the public hearing. All comments and public hearing requests should be addressed to Claudia Smith, U.S. EPA, Region 8, Air Program (8P-AR), 1595 Wynkoop Street, Denver, CO 80202. All comments received on or before May 19, 2008, and all comments made during a public hearing will be considered in arriving at a final decision on the permits. The final permits are a public record that can be obtained upon request. A statement of reasons for changes made to the draft permits and responses to comments received will be sent to persons who commented on the draft permits.

If you believe any condition of the draft permits are inappropriate or that our initial decision to deny an application, terminate a permit, or prepare a draft permit is inappropriate, you must raise all reasonably ascertainable issues and submit all reasonably ascertainable arguments supporting your position by the end of the comment period. Any supporting materials that you submit must be included in full and may not be incorporated by reference, unless they are already part of the administrative record for this permit proceeding or consist of tribal, or federal statutes and regulations, U.S. EPA documents of general availability, or other generally available referenced materials.

If you would like to be added to our mailing list to be informed of future actions on these or other Clean Air Act permits issued in Indian Country, please send your name and address to Part 71 Permitting Contact, U.S. EPA Region 8, Air Program (8P-AR), 1595 Wynkoop Street, Denver, CO 80202.
