ENVIR. APPEALS BOARD

**By Fax and First Class Mail**

June 20, 2006

Eurika Durr, Clerk of the Board  
Environmental Appeals Board  
U.S. Environmental Protection Agency  
MC 1103(B), Ariel Rios Building  
1200 Pennsylvania Avenue, N.W.  
Washington, DC 20460-0001

Re: Town of Rockland Wastewater Treatment Plant; Appeal Number NPDES 06-06

Dear Ms. Durr:

In connection with the above-referenced permit appeal, please find enclosed for docketing and review by the United States Environmental Protection Agency's ("EPA") Environmental Appeals Board (the "EAB"), a faxed copy of the parties' Status Report and Joint Motion for Further Stay of the Proceedings. Region 1 is also today sending an original and five copies of this motion by first class mail to the EAB. As indicated in the Certificate of Service, a copy of this motion has been served on the Petitioner by fax and by first class mail.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in cursive script that reads "Cynthia E. Liebman".

Cynthia E. Liebman  
Office of Regional Counsel

**BEFORE THE ENVIRONMENTAL APPEALS BOARD  
UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. ENVIR. APPEALS BOARD**

In the Matter of: )

Town of Rockland Wastewater )  
Treatment Plant )

NPDES Permit No: MA0101923 )  
\_\_\_\_\_ )

NPDES Appeal No. 06-06

**STATUS REPORT AND JOINT MOTION FOR FURTHER STAY**

**OF THE PROCEEDINGS**

Region I of the Environmental Protection Agency ("Region"), Respondent, and the North & South Rivers Watershed Association, Inc., Petitioner, respectfully submit to the Environmental Appeals Board ("Board") this Status Report and Joint Motion for Further Stay of the Proceedings in the above-referenced appeal until October 20, 2006.

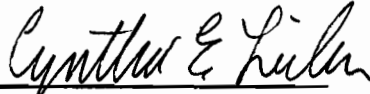

On January 26, 2006, EPA reissued a National Pollutant Discharge Elimination System ("NPDES") Permit, No. MA0101923 ("Permit"), to the Town of Rockland, Massachusetts Board of Sewer Commissioners authorizing wastewater discharges from the Rockland Wastewater Treatment Plant into the French Stream and establishing effluent limitations, monitoring requirements, and other conditions for such discharges. On March 1, 2006, the North & South Rivers Watershed Association ("NSRWA") filed a petition for review by the Board contesting the Permit's compliance schedule, effluent limitations for nutrients, and infiltration/inflow control plan. The Board directed the Region to submit a response by April 21, 2006 that addressed the Petitioner's contentions and whether the Petitioner had satisfied the requirements for obtaining review.

The parties submitted a Joint Motion for Stay on April 6, 2006 in light of ongoing settlement negotiations. On April 10, 2006, the Board granted the parties a stay until June 20, 2006, on which date the parties were to file a Status Report. The parties have engaged in discussions regarding resolution of the appeal, including in-person meetings on April 12 and May 5, 2006 and exchanges of correspondence.

Through these discussions, the parties have made substantial progress toward achieving an agreement in principle on a settlement of the appeal which will address the NSRWA's concerns. Assuming such an agreement is reached, the settlement will involve a permit modification. Accordingly, the parties seek an additional four (4) month stay of the proceedings. This time frame is based on the need for the parties to reach a final agreement, and then for EPA to discuss proposed permit changes with the Permittee, issue a draft permit with a thirty (30) day comment period, review comments and prepare a response to comments, and issue a final permit modification.

For the foregoing reasons, the Parties respectfully request a four (4) month stay of the proceedings before the Board in this case until October 20, 2006. On or before that date, the parties will file a Status Report with the Board indicating whether the permit modification has been finalized and the appeal withdrawn, or, if not, whether additional time is needed to complete the modification or alternatively whether a briefing schedule should be established.
