Hello Mr. Simpson.

Thank you for forwarding this on behalf of Ms. Williams. I assume that she is one of the parties that you were referring to in your threatening e-mail of March 13, 2012 (reproduced below). Can you please clarify the relationship between you and Ms. Williams as it relates to these proceedings?

Thank you.

Subject: palmdale interventions

Hi Ms. Lile, I just wanted to let you know that it looks like a number of the parties who participated and those that were excluded from participation intend to intervene in our proceeding before the EPA. I am afraid that resolution will be out of my hands soon. I am sure that you will get official notice when they do. I think that we will take that permit away and the project will be dead under the new PM2.5 rules. If the City wants the project it seems that additional consideration of an algal sequestration demonstration project should occur.

Rob

Attached please find the Motion for Intervention By Jane Williams for the Palmdale EAB proceeding. It has been filed with the Board

Thank you
Rob Simpson
