Dear Board Members,

ENVIR. APPEALS BOARD
I am writing in regards to the issuing of a Permit to "Skindfall Oil and Gas" of Falls Creek, Pa. for an Injection Well, to be located on Highland St. Extension, in order to dispose of their Marcellus Shale liquid leftovers.

I do not believe this is in the best interest of the many families in this area.

It may - no not, "may" it will contaminate their drinking water, by allowing them to dump inject their filthy waste materials so close to their properties.

I own property on Spafford Rd. which could become infected also, so I am very much against the "issuing a permit," to allow them "Skindfall Oil and Gas" to drill an "injection well" to dispose of their or anyone else's Filthy Waste on Highland St or any where.
Du Bois, Pa.

Yours truly,
Margaret Cyphert
