Re: NPDES Appeal No. 05-15  
NPDES Permit NH0001562  
Wausau Papers of New Hampshire, Inc. (Groveton, New Hampshire)

July 9, 2007

Dear Ms. Durr,

Enclosed please find the original of a Status Report and Motion to Extend Stay of Proceedings in the above-captioned case, as well as a certificate of service. The Status Report and Motion and the certificate of service were sent to you via facsimile earlier today. In lieu of five additional paper copies, I have posted electronic copies of each document to the CDX system.

Sincerely,

A handwritten signature in blue ink, appearing to read "R. A. Fein".

Ronald A. Fein, Assistant Regional Counsel

**STATUS REPORT AND MOTION TO EXTEND STAY OF PROCEEDINGS**

The New England Region of the Environmental Protection Agency (“Region”), after consultation with permittee-petitioner Wausau Papers of New Hampshire, Inc. (“Petitioner”), hereby submits this status report and moves to extend the stay of proceedings by an additional 95 days.

**BACKGROUND**

On September 20, 2005, the Region reissued a National Pollutant Discharge Elimination System Permit, No. NH0001562 (“Permit”), to Petitioner. On October 21, 2005, Petitioner filed, pursuant to 40 C.F.R. § 124.19(a), a Petition for Review (“Petition”) of the Permit. On October 27, 2005, the Board directed the Region to submit a response by December 14, 2005.

Since the filing of the Petition, the parties have moved for, and the Board has granted, a series of orders (dated November 28, 2005, April 20, 2006, July 12, 2006, November 9, 2006, and March 8, 2007) staying the proceedings while the parties engaged in settlement discussions. The last such order, dated March 8, 2007, stayed the proceedings in this matter until July 9,

2007, and required the Region to submit, on or before that date, a status report advising the Board whether it is appropriate to continue the stay, dismiss the Petition, or establish a schedule for the Region to file a response to the Petition.

### **STATUS REPORT**

Since the Region's last status report, the Region and Petitioner have been working diligently and cooperatively to resolve the issues raised by the Petition by permit modification. As noted in the Region's last status report, the Region has elected to proceed by dividing the issues under discussion into two separate permit modifications.

On May 9, 2007, the Region issued a final permit modification that modified the Permit's conditions regarding turbidity monitoring, flow, and total residual chlorine. Petitioner has confirmed to the Region that this permit modification finally resolves the issues raised in the Petition concerning the Permit's turbidity monitoring, flow, and total residual chlorine conditions.

Since January 2007, and continuing to the present, the Region and Petitioner have engaged in extensive and productive discussions regarding a second permit modification that would modify the Permit's conditions regarding temperature and cooling water intake structures. These issues are considerably more complex than the issues addressed in the first permit modification. The Region has shared multiple working drafts of this second permit modification with Petitioner, and the Region and Petitioner have exchanged extensive comments. The Region is presently finalizing the draft permit modification and supporting materials, and intends to submit a draft of this second permit modification for public comment later in July 2007.

The Region has made substantial progress in the last four months, but requires additional time to develop the second permit modification.

### **GROUND FOR CONTINUANCE OF STAY**

In light of the above progress, and in the interests of judicial economy and to conserve resources, the Region requests that these proceedings be stayed for an additional 95 days, in order to allow the Region sufficient time to: (1) submit the second draft permit modification for public comment; (2) receive, review, and respond to public comments; (3) consult with state and federal wildlife agencies regarding this second draft permit modification, and (4) issue a final permit modification.

Absent a continuance of the stay, the parties will be required to divert their time and effort from an ongoing permit modification process to litigation before the Board.

### **REQUESTED RELIEF**

Accordingly, the Region requests that the Board extend the stay of proceedings until October 12, 2007. The Region represents that its undersigned counsel has discussed this motion with Petitioner's counsel, that Petitioner's counsel has reviewed and approved this status report and motion, and that Petitioner, through counsel, concurs in this status report and assents to the motion to extend the stay of proceedings.

Respectfully submitted,

Ronald A. Fein, Assistant Regional Counsel  
U.S. Environmental Protection Agency Region 1  
One Congress Street, Suite 1100 (RAA)  
Boston, MA 02114
