I did attach them in a zip file. Here are the individual files. Please confirm that you received them this time.

Mike,

I did not get the attachments, which is fine with me, as long as Brian received them. Was that by design?

Thanks

Ida & Brian,

Attached are the additional modeling files for the Cape Wind project, as we discussed on our call yesterday, for your review. The additional modeling analyses demonstrate that the impacts from the transit and cable laying sources during the project's construction will not cause or contribute to an exceedance of the newly promulgated short term NAAQS. Let me know if you need any additional information prior to our call tomorrow at 3 PM.

Mike
