#### DECLARATION OF BARBARA GEORGE

On 6/19/2002 the California Energy Commission docketed my petition to intervene in their licensing proceeding for this facility. I participated in Evidentiary hearings on 6/20/2002 but was denied intervention that same day as the hearings concluded. I appealed the denial on 7/10/2002. My Petition for Reconsideration and the attached Memo of Points and Authorities described my efforts to intervene in this matter beginning in January 2002. The Energy Commission heard my appeal on 8/13/2002, but denied it.

I have no record that the Bay Area Air Quality Management District provided Public Notice to me of permitting actions for this facility. If I had received Notice I may have participated in the public comment opportunity. Both the Energy Commission and the BAAQMD were aware of how to reach me, because although I moved, I continued to be involved in Energy Commission matters, including other power plant applications. Furthermore, my email addresses have been the same since that time.

I hereby certify under the penalty of perjury that the above is true and correct.

/s/Barbara George
