In re:

Joint Base Lewis-McChord Municipal
Separate Storm Sewer System

United States Department of the Army, Joint
Base Lewis-McChord, *Permit Applicant*

NPDES Permit No. WAS-026638

NPDES Appeal No. 13-09

**MOTION FOR ADDITIONAL
EXTENSION OF TIME TO FILE
PETITION FOR REVIEW**

Expedited consideration requested

The United States Department of the Army (the "Army") respectfully moves for an additional five business (5) day extension of time, up to and including November, 5, 2013, in which to file a Petition for Review of NPDES Permit No. WAS-026638 (the "Permit"), signed on August 22, 2013, with service of notice of the final permit sent via email to Joint Base Lewis McChord (JBLM) on August 27, 2013 by the Environmental Protection Agency ("EPA"), Region 10. The current deadline for filing a Petition for Review is October 28, 2013.

The Department of Defense was shut down from 1-7 October 2013 as part of the Federal Government shutdown. This shut down had a significant negative effect on the Army's ability to address the issues raised in the appeal, the ability to coordinate within the Army, and the ability to coordinate with the Department of Defense as discussed in our first extension request. The requested additional time will not prejudice the EPA.

For the reasons set forth above, the Army respectfully requests that its Motion for Extension of Time to File a Petition for Review be granted.
