included as attachments. In addition, a certified index of the entire administrative record must be filed with the response. The permit issuer is encouraged to file the index to the record, preferably electronically, as soon as possible after receiving notification of this appeal. Early filing of the certified index enables the Board to begin prompt review of the record even before all of the briefs are filed.

A copy of this letter also is being sent to the petitioners as notification of these filing requirements.

Filing Requirements

Filing may be accomplished electronically pursuant to the Board's Order of August 12, 2013.² Alternatively, filing may be accomplished by filing a paper original (signed in blue ink) and two copies of these materials with the Board (at the address shown below) by the date specified above. A copy must be sent to Petitioners, and a certificate of service showing the date and method of service should be included with the filing.

IMPORTANT: All documents, including the materials due **February 17, 2015**, must reference the appeal number and the name, address, and telephone number of the filer. If available, the filer also should provide a fax number and an email address. **In addition, any envelope or other packaging containing documents sent to the Environmental Appeals Board's mailing address or hand-delivery address, as prescribed below, must bear a complete and accurate return address in the upper left hand corner.
