RE: Dry Creek Rancheria Wastewater Treatment Plant
Permit Number: CA 0005241
Appeal Number: NPDES 07-14 & NPDES 07-15

Dear Ms. Durr:

We understand that the Appellants in the above-captioned matter will be filing a request with the Board for an additional extension of time for the Permittee and the Region to file responses to the petitions for review. We understand further that all parties agree with this request, in that the parties are in the process of finalizing a complex settlement that will result in the dismissal of these appeals.

Although EPA is not the moving party, and stands ready to submit its response pursuant to the current extension, we do not oppose the proposed additional extension.

Very truly yours,

A handwritten signature in black ink that reads "Thomas M. Hagler".
