

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

July 21, 2003

Mr. Jeffrey Ritter
Wayland Wastewater Management Commission
41 Cochituate Road, Town Hall
Wayland, MA 01778

Re: NPDES Reapplication No. MA0039853

Dear Mr. Ritter:

Your reapplication for a National Pollutant Discharge Elimination System (NPDES) permit has been reviewed and found to be deficient in the following areas:

Form2A

Part E Toxicity Testing Data

Please note that you must submit toxicity tests including applicable chemical data.

Form 2S

In the original reapplication package sent to you, a Form 2B for Sludge was mailed. This was not completed and returned. Enclosed please find a blank Form 2S and instruction booklet.

Within 30 days of receipt of this letter, you are required to submit the above information to this office. Failure or refusal to correct the deficiencies noted may result in the denial of your updated permit request and the initiation of appropriate enforcement action under the Clean Water Act in the event that you commence discharging without an appropriate permit.

Should you require more time to submit the additional information do not hesitate to contact me at (617) 918-1519.

Sincerely,

Olga Vergara
Environmental Protection Specialist
