Subject: Question regarding UIC 13-01 and 13-02

Ms. Durr,

I am writing at your request after our telephone conversation yesterday. I had contacted you asking how to remove a duplicative filing from the record. Yesterday in the above matters I filed a Notice of Permit Withdrawal twice with the Board through the CDX system. As I stated, the reason for the two filings is that the first filing lacked a certificate of service and so was incorrect. I telephoned you to ask about the possibility of withdrawing the first filing, as the first filing is a duplicate of the document in the second filing. The Region does not plan to provide a copy of the first filing to other parties, as it is a duplicate of the second filing which the Region mailed to the other parties yesterday. You stated that I should provide you this background and request in writing, which you would communicate to the Judge handling this matter.

If you are communicating with the Judge in this matter, the Region is also wondering if the Board would like the Region to additionally file a motion to strike the current Petitions as moot. Please advise as to the Board's preference on that issue.

Thank you for your assistance.

Sincerely,

Kris P. Vezner
Associate Regional Counsel
U.S. EPA Region 5
