In re:

General Electric Company

NPDES Permit No. MA0003891

NPDES Appeal No. 08-25

ORDER DISMISSING PETITION FOR REVIEW

On April 21, 2009, General Electric Company ("GE") withdrew its petition for review in the above-captioned matter, and U.S. Environmental Protection Agency, Region 1 ("Region") informed the Environmental Appeals Board ("Board") of the Region's determination to withdraw the contested conditions of NPDES permit number MA0003891 and to propose modified conditions for public review and comment. Region's Notice of Withdrawal of Contested Conditions (April 21, 2009) ("Region's Notice"); GE's Notice of Withdrawal of Petition for Review (April 21, 2009). The Region states that it will issue a public notice of proposed revised permit conditions in a draft permit modification within the next two weeks. Region's Notice at 3.

For good cause shown, the Board approves GE's withdrawal of its petition, and the Board hereby DISMISSES WITH PREJUDICE the petition in its entirety.

So ordered.
