**ORDER GRANTING MOTION TO WITHDRAW PETITION**

Petitioner, Dow Chemical Company, filed a Motion to Withdraw Petition with the Environmental Appeals Board on December 28, 2001. Petitioner explains in its Motion that as a result of "correction of certain administrative errors in the final permit" by U.S. EPA Region VI, Petitioner no longer objects to its NPDES permit conditions. The Motion also states Petitioner's understanding that EPA Region VI concurs in Petitioner's Motion to Withdraw.

For good cause shown, Petitioner's Motion is granted.

So ordered.

ENVIRONMENTAL APPEALS BOARD
