Hi Oakley,

I apologize for the delay on this meeting. As I explained in a previous email, I have been working on finalizing other permit actions that were ahead in the queue. I will be out of the office until July 11. I wanted to go ahead and get our initial meeting on the calendar. If this day and time doesn't work, please re-propose and I will re-schedule when I return. Please forward meeting notice to who you want on this call. Currently, the plan is for our office to work on both Harvest permit actions(Los Mestenos and E&H Receiver) concurrently -another permit engineer has been assigned and hopefully we can divide and conquer. I will let you know if this changes. Our office is short staffed with a heavy workload, therefore priorities are being changed daily, regardless I will be working both until completion.

FYI – As I understand from a previous communication, Monica Smith will be the contact for E &H Receiver therefore I have sent a separate meeting notice to discuss that facility.

Respectfully,

Erica G. LeDoux, Environmental Engineer
