DESCRIPTION: On November 7, 2012, the U.S. Environmental Protection Agency Region III (Region) issued a public notice requesting comment on the proposed issuance of an Underground Injection Control (UIC) permit, PAS2D025BELK, to Seneca Resources Corporation (Seneca). Comments raised during the public comment period ending December 31, 2012, raised a substantial question related to seismicity concerns about the proposed well. Pursuant to 40 C.F.R. 124.14(b), the Region is reopening the public comment period on this draft permit. The Region requests public comment on its proposed findings that the well as permitted is unlikely to pose a risk of induced seismicity and as to why earthquakes do not pose a risk to the construction and operation of the injection well. The reopening of the public comment period is limited to these issues. The Region has supplemented the record to clarify and to provide additional evidence to support its proposed findings as outlined in the [Supplemental Statement of Basis \(PDF\)](#) (4pp, 3.48MB) and is available for review at the Friends Memorial Library, 230 Chase Street, Kane, Pennsylvania.

OPPORTUNITY FOR COMMENT: Information on the issues on which the Region is requesting comment is available for public inspection during normal business hours at:
