Ms. Collins,

I was out of the office during the holiday so was not able to process your request until today. I am attaching the draft permit and statement of basis for the Windfall Oil and Gas (PAS2D020BCLE) application. The permit application is not available electronically, but was made available for public review at the DuBois Public Library and is available for public review in our regional office. The full administrative record for this permitting action is not yet complete. The public comment period for this permitting action just ended and we are awaiting the transcript from the public hearing. After compiling all public comment we will develop a responsiveness summary that responds to the issues raised.
