Two items for you:

1. Just an FYI: From our conference call discussions on Monday, the person who might be contacting your Associate Regional Counsel, Everett Volk, is Major Paul Durkes, USAF HAF AFCEC/CZO. But please note that is subject to change; the legal community was supposed to have their own follow on discussions, but we haven't heard anything different to date.
2. Possible site visit times for week of 11 Mar: the week is already congested; it does appear that afternoon Wednesday, 13 Mar can work for us. Otherwise, we are into week of 18 Mar. And certainly the weather is still a factor. Wanted to get this on the calendar, if it works for everybody, then see about snow.

Let me know about #2 please.  
Thanks, Cory

Yes, that could work. I was hoping for the afternoon for warmer temperatures but that may be asking for too much (no snow and warmer temps). We can plan on the morning of the 19th and reschedule if necessary. What time works for you?

Amy,  
The afternoons are conflicted. However, morning of Tuesday, 19 Mar works for us; how about you?  
Thanks, Cory

Cory - The week of Mar 18 looks better for me. As of now, I have any time Tues. or Weds. available. Would either of those afternoons work for you?

Thanks.

Little snow left; just in shaded/drifted areas.  
Drive carefully.

Yes, I was planning on being there at 9 this morning. I'm not sure how traffic will be but I will call if I'm running late. My cell is 7202444022 also. Regarding the field work, is there snow cover to get to the creek? I don't need to get very close (no swimming today!) but I would like to see the conditions of the stream banks and some of your "major/larger" outfalls/culverts/outlets, etc. to the creek?

Thanks.

Amy,  
Confirming that you are still on for tomorrow at 0900.  
Will meet you in the overflow visitor's parking lot off the outbound lanes  
at the 6th Ave gate.  
Please call my cell number tomorrow if you are delayed.  
Thanks, Cory
