Dear Mr. Davis

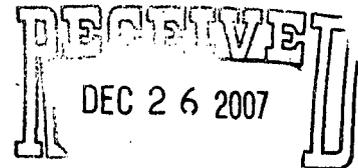

The enclosed "Stormwater Small MS4 Application Form" is submitted for Buckley Air Force Base (AFB) to continue coverage under the *National Pollutant Discharge Elimination System General Permit for Storm Water Discharges from Federal Facility Small Municipal Separate Storm Sewer Systems (MS4) in Colorado* Permit Number COR042000, Certification Number COR04208F. Submission of this reapplication form addresses the requirements in the email sent by your office on 18 Sep 07.

If you have any questions regarding this submittal, please contact Ms. Laurie Fisher, Water Quality Program Manager at 720-847-6308.

Sincerely

DONALD W. MCGEE, JR., Colonel, USAF

STORMWATER SMALL MS4 APPLICATION FORM

This form is for regulated small MS4s (Municipal Separate Storm Sewer Systems) on federal facilities in Colorado, and may be used to meet the application requirements for regulated small MS4s as outlined in 40 CFR§122.33. While it is not required for MS4 operators to use this form to meet federal regulations, operators are encouraged to use this format to allow for more efficient recordkeeping and to minimize paper consumption. This form may not be submitted electronically.

Completed forms may be sent to:

Greg Davis
Mailcode: 8P-W-WW
1595 Wynkoop Street
Denver, CO 80202-1129

All sections of this form must be completed and the form must be signed and certified following the certification statement in Part E.

Please print of type.

A. Permittee Information

Permittee (Agency Name): **Buckley Air Force Base
460th Space Wing
510 South Aspen Street, Stop 88**

City, State, and Zip Code: **Buckley AFB CO 80011-9572**

Stormwater Contact: **Laurie Fisher, Water Quality Program Manager
460 CES/CEV
660 South Aspen Street, Stop 86
Buckley AFB, CO 80011-9551**

Phone Number **720-847-6308**

Permit Certification Number: **COR04208F**

Have any areas been added to the MS4 due to annexation or other legal means? No

If yes, please describe:

B. Approximately how many square miles are covered by your

D. Identify any proposed changes or improvements to the stormwater management program and monitoring activities for the upcoming 5 years, if those proposed changes have not already been indicated in your year 4 annual report.

Buckley Air Force Base will continue to implement the goals and objectives of the current MS4 stormwater management program by:

- continued public education and outreach to the Buckley community on the impacts stormwater discharges have on local creeks and drainages, as well as the steps the community can take to reduce pollutants in stormwater runoff;
- continued public involvement/participation through semi-annual briefings to the Community Advisory Group;
- continued implementation of construction site stormwater runoff control through site-specific erosion and sediment control training and certification similar to the program developed for the Colorado Department of Transportation;
- continued stormwater management oversight of construction project operators including the development of acceptable and preferred practices, policies, or

- ordinance-type guidance and requirements documents;
- continued post-construction stormwater management through site-inspections of completed construction sites, maintenance of permanent best management practices, and development of appropriate numeric criteria; and
 - continued pollution prevention and good housekeeping through training on both industrial and construction stormwater requirements and annual site compliance inspections of industrial stormwater activities.

E. Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
