

Public Comments for UIC Class II injection well permit renewal  
Windfall Oil and Gas, Zelman #1, Brady Twp, Clearfield Co, Pa

From: Randall R Baird Sr  
1273 Highland St ext  
DuBois, Pa. 15801

1. All previously submitted concerns are still valid and relevant, maybe even more so.
2. This toxic project was permitted in the "geological refresh zone" for the water wells/supplies of Highland St Ext residents. (As per geological survey). I test my water daily with a TDS/EC (HM Digital) test meter. Readings have shown an average increase of 18.06 TDS/PPM and 35.93 in Microsiemens since the disturbance of this "geological refresh zone" property started on July 20, 2020. Readings prior to July 20, 2020 were calculated from November 1, 2019 to July 10, 2020

This is very disturbing since this shows that any accident, spill, operator error, mechanical failure or act of God in nature could/would cause a catastrophe for the Highland St ext residents fresh water supplies. The further disturbance of this zone will continue to cause the degradation of residents waters even without the further development of this ill fated venture.

This is especially alarming since replacing our fresh water would mean water buffalo's in yards as all other avenues/attempts to replace our existing water supplies has been exhausted. We would have no other alternative, thus rendering our already negatively impacted properties worthless!

3. Latest discoveries concerning the dangers of injection wells has become apparent in findings that show frack fluid has surfaced as far as 5 miles from well locations. They are  
a definite risk and threat to everyone, particularly when located in close proximity to communities like ours.
4. The Pa Constitution states in Article 1, Section 27, "The people have a right to clean air, pure water, and to the preservation of the natural, scenic, historic and esthetic values of the environment"!

This toxic waste site being located in our back yard is definitely an infringement on those values!

Please advise if this article found in the Pa Constitution has the weight a constitutional article should have or if it is just a worthless piece of paper like our US Constitution is becoming.

"No man may poison the people for his private profit". --- Theodore Roosevelt ---

Sincerely,  
Randall R Baird Sr
