US EPA R8 UIC Notification - Public Notice of Montalban Oil and Gas Operations (MOGO) Class V Jody Field 34-1 & 34-2 final permitting action
Date: Friday, May 1, 2026 2:43:00 PM

You are receiving this mailing because you requested to be notified as an "Interested Party" to this EPA Region 8 Underground Injection Control (UIC) permitting action.

**U.S. ENVIRONMENTAL PROTECTION AGENCY
REGION 8 UNDERGROUND
INJECTION CONTROL (UIC) NOTIFICATION**

UIC PERMIT NUMBER(S):	MT52443-12513 and MT52439-12514
PERMITTEE NAME:	Montalban Oil & Gas Operations, Inc
FACILITY NAME:	Jody Field 34-1 and 34-2
MAILING ADDRESS:	33 1st Ave SW Cut Bank, Montana 59427-2937

ACTIVITY: The EPA Region 8 UIC Program is issuing two Class V permits to Montalban Oil & Gas Operations, Inc. (MOGO) for injection activities into the Jody Field 34-1 and 34-2 wells. The permits will allow for injection of produced fluid from oil and gas related activities and non-hazardous industrial wastewater into the two existing wells. The wastewater is from the Montana Renewables Refinery in Great Falls, MT, and is generated by pretreating renewable feedstocks. EPA is also issuing an aquifer exemption expansion approval in connection with the UIC Class V permits. Specifically, this approval consolidates and expands previously authorized exemptions for the Madison Formation at the Jody Field 34-1 and Jody Field 34-2 wells by expanding the exempted area laterally to 6.6 square miles and increasing the depth to approximately 3,700 feet below ground surface.

Documents for the administrative record for this action can be found on regulations.gov at: <https://www.regulations.gov/docket/EPA-R08-OW-2025-0852/document>

PERMIT APPEAL PROCEDURES: Any person who filed comments on or participated in a hearing on the draft permits can appeal the final permits by filing a written petition for review with the Clerk of the EPA Environmental Appeals Board (EAB). The procedures for filing an appeal can be found at 40 CFR § 124.19. Additionally, any person who failed to file comments or participate in a hearing on the draft permits may petition for administrative review of any permit conditions set forth in the final permit decision, but only to the extent that those final permit conditions reflect changes from the proposed draft permit. A petition for review must be filed within thirty (30) days after service of notice announcing EPA's final permit decisions. The final permits and accompanying documents are available for download at <https://www.epa.gov/uic/underground-injection-control-epa-region-8-co-mt-nd-sd-ut-and-wy>.
