OFFICE OF THE
EXECUTIVE SECRETARIAT

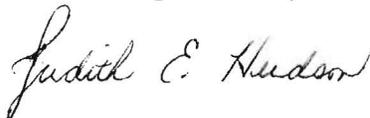

To Whom it May Concern:

I do not have a car and did not attend any town meetings in James City but did write a letter to you asking that you stop the conversion of one of your producing natural gas wells off Lamont Road to an injection well for the disposal of fluids linked with the drilling of oil and gas wells. I felt it has not been examined enough and the brine may contaminate James Citys' water supply.

I did not attend any of the town meetings in James City so I am really ineligible to have my letters be used in the case against Seneca Resources. I am therefore opting out of the final decision as my petition would be invalid.

Please, as far as I am concerned, be careful and really examine this issue. Once the water supply may be contaminated, there is no way to redo it.

Sincerely Yours,

Judith E. Hudson
