RE: Savoy Energy Creque 3-20 Well - Permit No. MI-091-2D-0004 - Lenawee County, Michigan

This letter of support is in reference to Savoy Energy - Creque 3-20 Injection Well - Permit No. MI-091-2D-0004 - located in Raisin Charter Township, Lenawee County, Michigan. Raisin Charter Township received a letter from United States Environmental Protection Agency Region 5 office at 77 West Jackson Boulevard, Chicago, IL. 60604-3590 on March 7, 2016. This letter was notice of issue of a final permit for the Savoy Energy - Creque 3-20 Injection Well in Lenawee County, Michigan.

The River Raisin Watershed Council (RRWC) is in support of Raisin Charter Township's request for a public forum to hear concerns related to the proposed permit and corresponding requirements. The Council would hope that Savoy Energy would explain those concerns before their permit is finalized. RRWC feels that with our rich investment in the health and welfare of the River Raisin and the entire community we request a closer evaluation in relation to the impacts and resulting actions on the community and watershed.

Thank you for your consideration in this matter.

Respectfully,

John Calhoun, Chairman  
River Raisin Watershed Council
