To Whom it May Concern:

I am writing this letter to appeal the permit to Seneca Resources to stop conversion of one of its producing natural gas wells off Lamont Road to an injection well for the disposal of fluids linked with the drilling of oil and gas wells. It has not been examined enough and the brine may contaminate James City's water supply. Please look into this a little further until you are completely positive it won't mess up the water supply.

Thank you very much for considering this matter.

Sincerely yours,

Judith E. Hudson
