ENVIR. APPEALS BOARD

To Whom it may Concern:

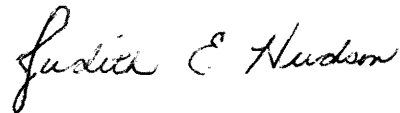

I was the first petitioner who petitioned you about Seneca Resources Corp considering looking into the matter further concerning putting brine waste into an injection well near James City's water supply and I forgot to include my telephone number:

My telephone number is 814-837-8098.

Thank you for reading this letter. I am petitioner #1 and hope my letters help. I don't think a well should be filled with brine because it could cause considerable damage to the water source for James City.

Thank you for your time.

Sincerely yours,

Judith E. Hudson
