Ronald D. Jolly
City of Chicago
Department of Law
30 North LaSalle Street, Suite 900
Chicago, Illinois 60602-2580

PLEASE TAKE NOTICE that I have today filed with the Clerk of the Environmental Appeals Board an original (1) and five (5) copies of a **MOTION FOR LEAVE TO FILE INSTANTER** and **RESPONSE IN OPPOSITION TO CITY OF CHICAGO'S MOTION FOR LEAVE TO FILE *AMICUS CURIAE* BRIEF** of the Respondent, **ILLINOIS ENVIRONMENTAL PROTECTION AGENCY**, a copy of which is herewith served upon you.

Respectfully submitted by,

Robb H. Layman
Assistant Counsel
Illinois EPA

Dated: November 2, 2005
Illinois Environmental Protection Agency
1021 North Grand Avenue East
P.O. Box 19276
Springfield, Illinois 62794-9276
(217)524-9137

that “any response to a motion *should* be filed within 15 days after service of the motion to ensure consideration (emphasis added).” *Id.* at pages 38-39. This provision of the Practice Manual clearly suggests that the 15-day filing date for response motions is directory, not mandatory.

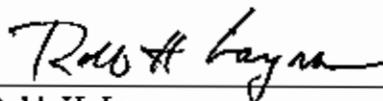

4. Due to press of other legal matters, including the recent filing of the Illinois EPA’s Supplemental Brief in this cause and extensive involvement in other recent Title V permitting disputes, the undersigned attorney was unable to consider the City’s Motion and Brief until earlier this week. As a result, the Illinois EPA’s filing of a formal response to the City’s Motion exceeds the Practice Manual’s recommended 15-day filing date by approximately a week.

5. At the time of this filing, the undersigned attorney had not been informed that the Board had yet ruled on the City’s Motion, thus acceptance of the Illinois EPA’s Response in Opposition to the City’s Motion will not pose any hardship or prejudice to others.

WHEREFORE, the Illinois EPA respectfully requests that the Board grant this Motion for Leave to File Instantly, thereby accepting the Illinois EPA’s Response in Opposition to the City of Chicago’s Motion as timely filed.

Respectfully submitted by,

ILLINOIS ENVIRONMENTAL
PROTECTION AGENCY,

Robb H. Layman
Assistant Counsel
Illinois EPA

**BEFORE THE ENVIRONMENTAL APPEALS BOARD
UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C.**

IN THE MATTER OF:)
)
INDECK-ELWOOD, LLC) PSD APPEAL NO. 03-04
PERMIT NUMBER 197035AAJ)

**RESPONSE IN OPPOSITION TO CITY OF CHICAGO'S
MOTION FOR LEAVE TO FILE *AMICUS CURIAE* BRIEF**

NOW COMES the Respondent, ILLINOIS ENVIRONMENTAL PROTECTION AGENCY ("Illinois EPA"), by and through its attorneys, and moves the ENVIRONMENTAL APPEALS BOARD ("Board") to deny the Motion for Leave to File *Amicus Curiae* Brief (i.e., "Motion") sought by the CITY OF CHICAGO (hereinafter "City") in the above-captioned proceeding. In support thereof, the Illinois EPA states the following:

1. The City filed its Motion and accompanying *Amicus Curiae* Brief (hereinafter "Brief") with the Board on or after October 7, 2005. The Illinois EPA was served by mail with a copy of the Motion and the Brief on October 11, 2005.
2. In its Motion, the City seeks leave from the Board to file its Brief pursuant to 40 C.F.R. §124.19 and Section III.D.7 of the Board's Practice Manual. *See, Motion* at page 1. Instead of explaining the basis for either purported source of authority, the City cites to a previous Board order, wherein the Board lifted the stay on the proceedings and directed both the Illinois EPA and the Petitioners, *Sierra Club et al.*, ("Sierra Club") to provide supplemental briefs relating to the Endangered Species Act, 16 U.S.C. §1536, and "any other issue" germane to the procedural context of this case. *See, In re: Indeck-Elwood, LLC*, PSD Appeal No. 03-04, Order Lifting Stay and Requiring

Additional Briefing (hereinafter "Order")(EAB, July 21, 2005). In conjunction with that Order, the City states that it "would like to offer its unique perspective [sic] this issue." See, *Motion* at page 1 and 2. The Motion also alleges that the proposed project by INDECK-ELWOOD, LLC, ("Indeck"), is a matter of "major concern" to the City.

3. The City's participation in this proceeding as through an amicus brief is not available as a matter of right. The procedural provision cited by the City does indeed contemplate the participation of a non-party in a permit proceeding, but it does so in an altogether different context. Section 124.19(c) of the Board's procedural regulations provides that the Board shall allow for any "interested person" to file an amicus brief following any grant of a petition for review. See, 40 C.F.R. §124.19(c). In this instance, the Board has yet to decide whether to deny or grant review of the pending petition.

4. Nothing in the Part 124 regulations or the Board's Practice Manual¹ authorizes the City's intrusion into this stage of the Board's review, which is focused primarily upon acquiring information from a permitting authority so as to enable the Board to respond to issues raised in the initial petition. This phase of the Board's review is the first stage of the Board's two-part review envisioned by the Part 124 regulations. See, Practice Manual at Section III (D)(1), page 30 (June 2004 edition). Even if the Board, in its discretion, would chose to allow *amicus* brief filings prior to its ruling on the merits of a petition, no circumstances would warrant it here. Apart from evincing generalized concerns, the City does not articulate any reason in its Motion as to why the Board should now consider briefings from non-parties to the case.

¹ The latter source of authority is presumably cited because it relates to general motion practice before the Board. The Manual notes that that no regulatory standards exist for motions in permit proceedings, however, some basic guidelines have been recognized by the Board "as a matter of practice." See, Practice Manual at Section III (D)(7)(b), pages 37-38 (June 2004 edition). However, the Board's Practice Manual neither expressly nor implicitly supports the City's attempt to be heard in this proceeding at this time.

5. Based on a previous status hearing and prior Board orders, it would not be surprising if the Board sought guidance from the Environmental Protection Agency's Region V or the Office of General Counsel ("OGC") with respect to the ESA issue. The filing of briefs by the Regions and/or OGC in Board proceedings is not uncommon in permit proceedings arising from delegated programs or, as here, where a particular issue directly relates to a Region's involvement in the proceeding. However, the role of USEPA's internal divisions in assisting the Board in its initial review stage is different from the level of participation posed by the City's Motion. Such *amicus* filings could potentially undermine the interests of judicial economy.

6. The Board's prior Order clearly evidences a desire to hear from the *parties* to this cause. Moreover, the Order specifically asked the parties to address the need for any further permitting action that would be taken as a result of the ESA consultation process undertaken by Region V. Although the Board's Order included a catch-all phrase relative to "other issues," this invitation was ostensibly limited to matters relating to the procedural context of the case, as cast by the ESA consultation issue. No fair reading of the Board's Order would construe it as an open invitation for advancing issues outside of the scope of the proceedings.

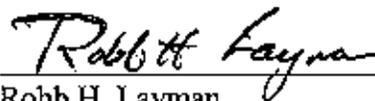

7. As presented in its *Amicus Curiae* Brief, the City's apparent concerns in this case bear no resemblance to the primary issue addressed by the Board in its Order. Rather, the City's Brief primarily focuses on recent developments affecting the "feasibility and effectiveness of IGCC technologies." *See, Brief* at page 2. Those developments reportedly include the impact of recently proposed coal-fired power plant projects, recent permitting determinations and an ozone re-designation in certain regions of Illinois. *Id.* at 2 and 3.

8. When viewed as a whole, the City's Brief does not offer anything instructive to the issues raised in this proceeding, let alone the Board's July 21, 2005, Order. Quite the contrary, it appears to be merely a ruse for introducing substantive issues that are clearly outside of the scope of the Amended Petition. Notably, one of the points raised by the City (i.e., ozone re-designation) mirrors the very argument raised by the Petitioners in an earlier Motion for Clarification. At that time, the Board refused to allow the Petitioners to interject that issue into this proceeding because the matter had not been properly raised in the petition for appeal. *In re: Indeck-Elwood, LLC*, PSD Appeal No. 03-04, Order Denying Petitioners' Motion for Clarification, note 9 (EAB, July 7, 2004). The Board should reject the City's Motion on the same grounds.

WHEREFORE, the Illinois EPA respectfully requests that the EAB deny the City's Motion or, alternatively, order such relief as may be deemed just and appropriate.

Respectfully submitted,

ILLINOIS ENVIRONMENTAL
PROTECTION AGENCY,

Robb H. Layman
Assistant Counsel
Division of Legal Counsel
