CONSENT AGREEMENT AND FINAL ORDER

I. PRELIMINARY STATEMENT

1. This Consent Agreement and Final Order ("CAFO") is issued under the authority vested in the United States Environmental Protection Agency ("EPA") pursuant to Section 309(g) of the Clean Water Act (herein "the Act"), 33 U.S.C. § 1319(g). This CAFO is issued to simultaneously commence and conclude this proceeding to assess a civil penalty in accordance with 40 C.F.R §§ 22.13(b) and 22.18(b)(2) and (3), as described in the "Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties and the Revocation/ Termination or Suspension of Permits."

2. The EPA and Respondent ("Parties") agree that settlement of the relevant matters without litigation will save time and resources, that it is in the public's interest, and that the entry of this CAFO is the most appropriate means of resolving such matters. Compliance with all the terms and conditions of this CAFO resolves only those violations specified in this CAFO.

3. Respondent admits the jurisdictional allegations herein; however, Respondent neither admits nor denies the specific Findings of Fact and Conclusions of Law contained in this CAFO. This CAFO states a claim(s) upon which relief may be granted.

4. Respondent expressly waives any right to contest the factual allegations or conclusions of law contained in this CAFO, and waives its right to appeal the Final Order set forth herein.

5. Before the taking of any testimony, and without adjudication of any issue of law or fact, the parties agree to the terms of this CAFO and to its issuance. Respondent consents to the assessment and payment of a civil penalty in the amount and by the method stated below.

II. FINDINGS OF FACT AND CONCLUSIONS OF LAW

6. The New Mexico General Services Department ("Respondent") is a political subdivision of the State of New Mexico, and as such, Respondent is a "person," as that term is defined at Section 502(5) of the Act, 33 U.S.C. § 1362(5), and 40 C.F.R. § 122.2.

7. At all times relevant to the violations alleged herein ("relevant time period"), Respondent owned or operated the greater than one acre Tri-Services Laboratory construction site located at Camino de Salud, Albuquerque, Bernalillo County, New Mexico ("facility"), and was therefore an "owner or operator" within the meaning of 40 C.F.R. § 122.2.

8. The facility is an industry identified under 40 C.F.R. § 122.26(b)(14)(x) and is subject to the General Permit for Storm Water Discharges Associated with Construction Activity issued by EPA on September 29, 2008.

9. Respondent began construction activities at the facility in January 2009, and said construction activities continued until October 2009.

10. During the relevant time period, the facility was a "point source" of a "discharge" of "pollutants" with its storm water discharges to the receiving waters of the City of Albuquerque's Municipal Separate Storm Sewer System, thence to the Rio Grande, which is a "water of the United States" within the meaning of 40 C.F.R. § 122.2.

11. Because Respondent owned or operated a facility that is a point source of discharges of pollutants to waters of the United States, Respondent and the facility were subject to the Act and the National Pollutant Discharge Elimination System ("NPDES") program.

12. Under Section 301 of the Act, 33 U.S.C. § 1311, it is unlawful for any person to discharge any pollutant from a point source to waters of the United States, except with the authorization of, and in compliance with, an NPDES permit issued pursuant to Section 402 of the Act, 33 U.S.C. § 1342.

13. Section 402(a) of the Act, 33 U.S.C. § 1342(a), provides that the Administrator of EPA may issue permits under the NPDES program for the discharge of pollutants from point sources to waters of the United States. Any such discharge is subject to the specific terms and conditions prescribed in the applicable permit.

14. According to EPA's database that records all applications for storm water general permit coverage, Respondent did not make timely application for permit coverage to conduct certain activities at the facility, and was not covered by a NPDES permit at the relevant times for the construction activities.

15. Respondent failed to apply for permit coverage under the NPDES program and therefore violated Section 301 of the Act by discharging pollutants to the waters of the United States without

permit authorization. Rain events for the area indicate pollutant discharges from the facility on three (3) occasions: July 3, 2009; September 16, 2009; and September 17, 2009.

16. The State of New Mexico was notified and given an opportunity to consult with EPA regarding the proposed assessment of an administrative penalty against Respondent.

17. EPA notified the public of the proposed CAFO and afforded the public forty (40) days to comment on the proposed penalty. At the expiration of the notice period, EPA had received no comments from the public.

III. TERMS OF SETTLEMENT

21. Respondent agrees not to claim or attempt to claim a federal income tax deduction or credit covering all or any part of the civil penalty paid to the United States Treasurer.

22. Pursuant to 31 U.S.C. § 3717 and 40 C.F.R. § 13.11, unless otherwise prohibited by law, EPA will assess interest and late payment penalties on outstanding debts owed to the United States and a charge to cover the costs of processing and handling a delinquent claim. Interest on the civil penalty assessed in this CAFO will begin to accrue thirty (30) days after the effective date of the CAFO and will be recovered by EPA on any amount of the civil penalty that is not paid by the respective due date. Interest will be assessed at the rate of the United States Treasury tax and loan rate in accordance with 40 C.F.R. § 13.11(a). Moreover, the costs of the Agency's administrative handling of overdue debts will be charged and assessed monthly throughout the period the debt is overdue. See 40 C.F.R. § 13.11(b).

23. EPA will also assess a \$15.00 administrative handling charge for administrative costs on unpaid penalties for the first thirty (30) day period after the payment is due and an additional \$15.00 for each subsequent thirty (30) day period that the penalty remains unpaid. In addition, a penalty charge of up to six percent per year will be assessed monthly on any portion of the debt which remains delinquent more than ninety (90) days. See 40 C.F.R. § 13.11(c). Should a penalty charge on the debt be required, it shall accrue from the first day payment is delinquent. See 31 C.F.R. § 901.9(d). Other penalties for failure to make a payment may also apply.

24. Pursuant to Section 309(g)(9) of the Act, 33 U.S.C. § 1319(g)(9), any person who fails to pay, on a timely basis, a civil penalty ordered or assessed under this section shall be required to pay, in addition to such penalty and interest, the United States enforcement expenses, including but not limited to, attorneys' fees and costs incurred by the United States for collection proceedings, and a quarterly non-payment penalty for each quarter during which such failure to pay persists. Such non-payment penalty shall be 20 percent of the aggregate amount of such person's outstanding penalties and non-payment penalties accrued as of the beginning of each quarter. In such a collection action, the validity, amount, and appropriateness of the penalty assessed by this CAFO, and the terms of this CAFO shall not be subject to review.

27. In any action to enforce this CAFO, Respondent shall not assert as a defense any act or failure to act by any of its officers, directors, employees, agents, servants, contractors, subcontractors, successors or assigns.
