Mr. Kevin Turner  
EOR Production Engineering Manager  
Chaparral Energy, LLC  
701 Cedar Lake Boulevard  
Oklahoma City, OK 73114

Re: Transmittal of Final Amended Administrative Order  
Docket Number: SDWA-06-2015-1121

Dear Mr. Turner:

We issued a proposed Administrative Order on December 5, 2014 (hereinafter referred to as the "Original Order"). The Original Order was amended on February 5, 2015, (hereinafter referred to as the "Amended Order") for review and comment by you and the public. We did not receive any comments on the Amended Order from the public and you did not request a hearing. The proposed Amended Order is enclosed, hereby made final and issued to you for violations of the Safe Drinking Water Act (SDWA).

These violations were identified based on the Environmental Protection Agency (EPA) field reports and your monthly compliance reports. The violations were for allowing contaminants to move through zones of underground sources of drinking water while operating injection wells under an EPA's "Area Permit." The enclosed Amended Order does not assess a monetary penalty; however, it does require compliance with SDWA requirements.

You are required to continue to conduct groundwater monitoring and sampling as outlined in paragraph twelve of the Amended Order. Additionally, you are required to complete plugging of injection well no. NBU 23-W23 identified as, "EPA Inventory OS6273002" in the Original Order.

The SDWA provides that you, or any person who commented on the proposed order, may file an appeal of the final order with the United States District Court for the District of Columbia or the district in which the violations occurred. Such appeal must be filed within 30 days after the final order is issued. If you file an appeal, you must simultaneously send a copy of the appeal by certified mail to the Administrator of the Environmental Protection Agency and to the U. S. Attorney General.
