Enclosures

2. Complainant and Respondent have conferred for the purpose of settlement pursuant to 40 C.F.R. § 22.18 and desire to resolve this matter and settle the allegations described herein without a formal hearing. Therefore, without the taking of any evidence or testimony, the making of any argument, or the adjudication of any issue in this matter, and in accordance with 40 C.F.R. § 22.13(b), this Consent Agreement and Final Order (CAFO) will simultaneously commence and conclude this matter.

II. Preliminary Statements

3. In December 1977, pursuant to Section 112(l) of the CAA, the EPA delegated the Administrator's authorities and responsibilities to implement and enforce emission standards and prevention requirements for asbestos under Section 112 of the CAA, 42 U.S.C. § 7412, to the State of Georgia. Pursuant to Georgia Department of Natural Resources Rules for Air Quality Control, Chapter 391-3-1-.02(9)(b)(7), the State has incorporated and adopted the EPA's rules for asbestos located at 40 C.F.R. Part 61, Subpart M, promulgated pursuant to Section 112 of the CAA, by reference. As indicated in Section 112(l)(7) of the CAA, nothing in Section 112(l) of the CAA shall prohibit the Administrator from enforcing any applicable emission standard or requirement under Section 112 of the CAA.
4. Asbestos is a "hazardous air pollutant" as that term is defined in Section 112(a) of the CAA, 42 U.S.C. § 7412(a), and is the subject of regulations codified at 40 C.F.R. Part 61, Subpart M, "National Emission Standard for Asbestos," promulgated pursuant to Section 112 of the CAA, 42 U.S.C. § 7412.
5. A "person" is defined in Section 302 of the CAA, 42 U.S.C. § 7602 as an individual, corporation, partnership, association, state, municipality, political subdivision of a state

and any agency, department or instrumentality of the United States and any officer, agent or employee thereof.

6. A “facility” is defined in 40 C.F.R. § 61.141, in part, as any institutional, commercial, public, industrial or residential structure, installation or building (including any structure, installation or building containing condominiums or individual dwelling units operated as a residential cooperative, but excluding residential buildings having four or fewer dwelling units); any ship; and any active or inactive waste disposal site.
7. “Demolition” is defined in 40 C.F.R. § 61.141 as the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of any facility.
8. “Renovation” is defined in 40 C.F.R. § 61.141 as altering a facility or one or more facility components in any way, including the stripping or removal of regulated asbestos-containing material from a facility component.
9. An “owner or operator of a demolition or renovation activity” is defined in 40 C.F.R. § 61.141 as any person who owns, leases, operates, controls or supervises the facility being demolished or renovated or any person who owns, leases, operates, controls or supervises the demolition or renovation operation or both.
10. An “installation” is defined in 40 C.F.R. § 61.141 as any building or structure or any group of buildings or structures at a single demolition or renovation site that are under the control of the same owner or operator (or owner or operator under common control).
11. Since the EPA has delegated the Administrator’s authorities and responsibilities for asbestos under Section 112 of the CAA to the State of Georgia, owners or operators of demolition or renovation activity occurring in the State must notify the Georgia

Department of Natural Resources, Georgia Environmental Protection Division, Lead-based Paint and Asbestos Program of any such activity pursuant to 40 C.F.R.

§ 61.145(b).

12. Any person who violates Section 112 of the CAA may be assessed a penalty of up to \$25,000 for each such violation, in accordance with Section 113(d) of the CAA, 42 U.S.C. § 7413(d). The Debt Collection Improvement Act of 1996 requires the EPA to review and adjust penalties, as necessary, for inflation at least once every four years. Pursuant to the Adjustment of Civil Monetary Penalties for Inflation Rule, 40 C.F.R. Part 19, the current revised maximum penalty for each violation occurring after January 12, 2009, is \$37,500. Each day a violation continues may constitute a separate violation.

III. Specific Allegations

13. Respondent is a corporation registered to operate in the State of Georgia. Therefore, Respondent is a “person” as defined in Section 302 of the CAA, 42 U.S.C. § 7602.
14. “Demolition” occurred on or about April 15, 2013, at a “facility” formerly located at 801 Glenwood Avenue SE in Atlanta, Georgia (the Facility).
15. The Facility demolished was the former Maynard Jackson High School, an institutional installation; and therefore, met the definition of a “facility.”
16. Respondent controlled the demolition operation at the Facility. Therefore, Respondent met the definition of an “owner or operator of a renovation or demolition activity.”
17. The EPA determined Respondent’s compliance through the review of a “Georgia Project Notification Form for Asbestos Renovation, Encapsulation or Demolition” form Respondent submitted to the State of Georgia in April 2013 for the Demolition (the Notice).

18. The Notice was signed by Respondent on April 2, 2013, which indicates a postmark or delivery date to the State of Georgia no earlier than April 2, 2013. The demolition start date indicated in the Notice was April 15, 2013.
19. Pursuant to 40 C.F.R. § 61.145(b)(3)(i), a notice of the intention to demolish a facility must be postmarked or delivered at least 10 working days before demolition begins.
20. The Notice was postmarked or delivered no earlier than nine days before the Demolition was to begin.
21. Respondent violated Section 112 of the CAA, 42 U.S.C. § 7412, and 40 C.F.R. § 61.145(b)(3)(i) by failing to provide the State of Georgia with a written notice of the intention to demolish the Facility, postmarked or delivered, at least 10 working days before the Demolition began.

IV. Consent Agreement

22. For the purposes of this CAFO, Respondent admits the jurisdictional allegations set forth above and neither admits nor denies the factual allegations set forth above.
23. Respondent waives its right to a hearing on the allegations contained herein and its right to appeal the proposed Final Order accompanying the Consent Agreement.
24. Respondent consents to the assessment of the penalty proposed by the EPA and agrees to pay the civil penalty as set forth in this CAFO.
25. Respondent certifies that as of the date of its execution of this CAFO, it is in compliance with all relevant requirements of the National Emission Standard for Asbestos, 40 C.F.R. Part 61, Subpart M.
26. Compliance with this CAFO shall resolve the allegations of the violations contained herein. This CAFO shall not otherwise affect any liability of Respondent to the United

States. Other than as expressed herein, neither the EPA nor Complainant waives any right to bring an enforcement action against Respondent for violation of any federal or state statute, regulation or permit; to initiate an action for imminent and substantial endangerment; or to pursue criminal enforcement.

27. Complainant and Respondent agree to settle this matter by their execution of this CAFO. The parties agree that the settlement of this matter is in the public interest and that this CAFO is consistent with the applicable requirements of the CAA.
