PRELIMINARY STATEMENT

This administrative proceeding for the assessment of a civil penalty was instituted pursuant to Section 325(c) of Title III of the Superfund Amendments and Reauthorization Act, 42 U.S.C. §11001 *et seq.* [also known as the Emergency Planning and Community Right-to-Know Act of 1986 (hereinafter, "EPCRA")]. The "Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties, Etc." (40 C.F.R. Part 22 (July 1, 2000)), provide in 40 C.F.R. §22.13(b) that when the parties agree to settle one or more causes of action before the filing of an Administrative Complaint, a proceeding may be simultaneously commenced and concluded by the issuance of a Consent Agreement and Final Order pursuant to 40 C.F.R. §§22.18(b)(2) and (3).

The Director of the Division of Enforcement and Compliance Assistance of the United States Environmental Protection Agency, Region 2 ("EPA or Complainant"), alleges that Pamarco Global Graphics located at 701 Roto Avenue, Palmyra, New Jersey 08065 violated the requirements of Section 313 of EPCRA (42 U.S.C. §11023) and the regulations promulgated pursuant to that Section, codified at 40 C.F.R. Part 372.

Under Section 313 of EPCRA and 40 C.F.R. §372.22, owners or operators of a facility subject to the requirements of Section 313(b) are required to submit annually, no later than July 1 of each year, a Toxic Chemical Release Inventory Reporting Form R report, EPA Form 9350-1 (hereinafter, "Form R report"), for each toxic chemical listed under 40 C.F.R. §372.65 and/or 40 C.F.R. §372.28 that was manufactured, imported, processed, or otherwise used during the preceding calendar year in quantities exceeding the established toxic chemical thresholds. The completed and correct Form R report is required to be submitted to the Regional Administrator of the EPA and to the State in which the subject facility is located.

As an alternative to the requirements set forth above, pursuant to Section 313(f)(2) of EPCRA (42 U.S.C. §11023(f)(2)), and 40 C.F.R. §372.27, owners or operators of a facility subject to the requirements of Section 313(b), with respect to the manufacture, process or otherwise use of a toxic chemical, may apply an alternate threshold of one million (1,000,000) pounds per year to that chemical if the conditions set forth in 40 C.F.R. §372.27(a) are met. Pursuant to 40 C.F.R. §372.27(b), if the aforementioned alternate threshold for a specific toxic chemical is applicable, such owners or operators, in lieu of filing a Form R report therefore, may submit "EPA Toxic Chemical Release Inventory Form A report" (EPA Form 9350-2) (formerly the "Certification Statement"; see 59 Fed. Reg. 61488; November 30, 1994). EPA has excluded Persistent Bioaccumulative Toxic Chemicals (PBTs) from eligibility for the "Alternate Threshold for facilities with Low Annual Reportable Amounts." (40 C.F.R. §372.27(e))

EPA and Pamarco Global Graphics agree that settling this matter by entering into this Consent Agreement and Final Order ("CAFO") pursuant to 40 C.F.R. §22.13(b) and 40 C.F.R. §22.18(b)(2) and (3), is an appropriate means of resolving this case without further litigation. This CAFO is being issued pursuant to said provisions of 40 C.F.R. Part 22. No formal or adjudicated Findings of Fact or Conclusions of Law have been made. The following constitutes Complainant's Findings of Fact and Conclusions of Law based upon information EPA had obtained through June 6, 2007.
